

KILLED HIMSELF FOR A WOMAN.

THOUSANDS OF PEOPLE VIEW THE REMAINS.

Body of Pope Leo Are Taken to St. Peter's—Italian Soldiers Are Permitted on Vatican Territory.

ROME, July 23.—Today the form of Leo XIII lay in state in the basilica of St. Peter's, while thousands of people from the ordinary walks of life filed past to pay their last tributes of love and veneration.

THOUSANDS VIEW REMAINS.

The impressive ceremonies of yesterday were viewed by only a favored few of the nobility, aristocracy and the highest clergy, but today the doors were opened to the entire public. Many remained on the piazza throughout the night in order to gain a place at the head of the line. By 5 o'clock this morning, there was a crowd of several hundred which had increased by 6 o'clock to several thousands.

Elaborate preparations had been made to guard against accidents in the crush. All converging streets were cleared of vehicles, leaving them free for foot passengers, while six ambulance stations had been erected, including one at the entrance to the piazza and another beside the door of St. Peter's.

THE BELLS TOLL.

Exactly at 6 o'clock the bells of the great cathedral began tolling mournfully—a small bell beginning in the high notes and the chimes running down through the scale until a deep bass stroke had completed the minor chord.

ITALIAN TROOPS.

At the sound of the first bell, two regiments of Italian grenadiers marched smartly across the piazza to the stone steps and soon the east portico swarmed for the first time in years with Italian troops—300 on the portico and 1700 surrounding the colonnades. The grenadiers wore long blue service coats and peaked caps. They stood in double column at parade rest, the lines extending from the threshold of the church through a narrow gateway of a temporary wooden structure, which was holding back the crowds. At five minutes after six o'clock, the gate was opened and the human tide began to flow in.

The jam at the narrow entrance soon became terrible, threatening serious results to the struggling mass of half-fainting women and children.

Although the crowd was not extraordinarily large, the steady movement into the funnel-like enclosure made the pressure terrific.

Many women had their dresses or veils torn off and some were lifted, exhausted, over the wooden enclosure and out of the crush. Fortunately, there were no serious accidents, and the ambulances were not summoned.

ROBES OF OFFICE.

Within the church temporary railings had been erected to keep the people in a straight line leading to the bier. This was the center toward which all eyes turned.

The body lay on a catafalque ten feet

high, so that all could see it.

The body was slightly inclined, with the head raised and facing the passing throng. The visage had a chalky whiteness and appeared to be unnaturally shriveled. It was robed in the full vestments as the Roman public knew the Pontiff in life.

Around the bier burned thirteen high candles, while on each side stood the Noble Guards, motionless.

Farther back were kneeling priests and acolytes softly intoning invocations.

COULD NOT KISS FOOT.

The crowd pushed against the iron railing, which separated the chapel from the main portion of the church, but those who expected to kiss the slippered feet were disappointed, as the officials had adopted precautionary measures, so that the lower extremity of the body was half a yard back of the iron grating.

All ranks and stations of life were represented in the throng. Crowds continued to pass before the bier throughout the morning.

PONTIFICAL MASS.

At 9:30 a. m. the solemn Pontifical requiem mass was celebrated in St. Peter's for the repose of the soul of Leo XIII. The crowd was kept constantly moving within the wooden barriers, but other entrances were provided for those desiring to assist at the mass on the other side of the church. Several thousand people were present, although in so vast a church, capable of containing 70,000 persons, they appeared to be a mere handful, especially as all were standing.

During the hot hours of the day the crowd at St. Peter's decreased and little difficulty was experienced in viewing the body.

SOLDIERS ENTER CHURCH.

An extraordinary significant element was introduced later in the morning by Italian soldiers entering the church for the maintenance of order. In full uniform, wearing their caps and side arms, they lined the aisles of the basilica and stood two deep in front of the body until the whole church assumed an aspect almost more military than religious.

The event, which was unprecedented, created widespread comment. The presence of the soldiers was generally interpreted to mean another step toward a re-approachment between the church and state, as heretofore the Vatican has maintained that it had a sufficient force of soldiers to insure order within its own territory, and the inference is drawn that the Vatican and the government have come to such an agreement that Italian troops may, during the lifetime of the next Pope, be employed in and about St. Peter's to preserve order during great ceremonies.

RUSSIA'S BIG BORROW.

ST. PETERSBURG, July 23.—It is stated that Russia has arranged with French capitalists for a loan of \$26,000,000.

EARTHQUAKES AT SALT LAKE.

SALT LAKE, Utah, July 23.—Several slight earthquakes were felt in this city and Ogden at 1:40 this morning. No damage is reported.

MISS MOLLIE SEYMOUR.

SAM CONYERS DIED FOR LOVE OF A WOMAN.

He Was Jealous Because Mollie Seymour Loved a Soldier Boy So He Sent a Bullet Into His Brain.

Ill-requited love made life not worth living for Sam Conyers, a man aged 30 years, and led to his suicide at an hour unknown either last night or this morning, in room 45 of the New Grand lodging-house, 518 1/2 Seventh street.

The remains of the unfortunate man were found this morning lying undressed in the bed of the apartment with a ghastly bullet hole on the right side of the head about an inch above the right ear.

The right hand still retained a faint hold of a .38-caliber revolver with which the tragic deed had been enacted.

The left hand, at the same time, held in feeble clasp, the portrait of a young woman of this city named Mollie Seymour, who, it seems, was the object of his admiration, and upon whose counterfeit presentment his eyes gazed for the last time before they were closed in the sleep of death.

AIMED WITH MIRROR'S AID.

Death must have been instantaneous because the shot was so delivered that the bullet found lodgement in a spot which rendered recovery impossible.

So well aimed was the fatal missile that the impression obtained that the direction was obtained while the would-be suicide stood contemplating himself in the mirror of his dressing case which occupied the angle of the chamber of death.

The gruesome discovery was made by August Sonnenhosen, the proprietor of the lodging-house, as he was making his rounds this morning at about 9 o'clock.

WILL YOU LOVE ME.

The room was in the same condition with regard to the arrangement of its contents that it had been in for several days. Among the articles was a photograph with a modern chair, which lay upon the floor. The last air which had ever saluted the ears of the deceased from the instrument was the plaintive one, "Will You Love Me Then as Now?" Undoubtedly, poor Conyers had in mind Miss Seymour when he selected the chair which afforded him the last pleasure, presumably, which he had in life.

HIS LAST LETTER.

DEAR DOT: HOPING YOU WILL FORGIVE THIS RASH ACT I AM ABOUT TO TAKE; I CANNOT BEAR IT ANY LONGER, FOR I THINK IT IS FOR THE BEST THAT I SHOULD LEAVE THIS WORLD; AND YOU, WITH YOUR HAPPINESS, YOU CANNOT KNOW HOW MUCH I HAVE GRIEVED OVER IT; AND HOPING YOU WILL FORGIVE ME FOR IT, I REMAIN YOUR HEART-BROKEN STAND-BY. GOOD-BYE, MY DARLING, FOR I LOVE YOU.

SAM CONYERS.

EFFECTS OF THE DEAD.

Deputy Evans examined the pockets of the clothing in which the body was encased, namely a black shirt with narrow white stripes, with trousers of dark brown rough material worn by laborers. Nothing, however, was found in them, which would give any clue to the motive for the rash act.

LAST THOUGHT OF SWEETHEART.

In the dressing case, however, was found a square envelope, addressed, "Mollie Seymour, 470 1/2 Seventh street, room 7." Within this envelope was a missive telling of premeditated death, written in faint lead pencil marks and in the somewhat irregular and cramped hand of a hard-working man. This letter inside was addressed to "Dear Dot," and was signed by "Sam Conyers."

The woman answering the endorsement of "Dot" is known as Miss Seymour, who rooms in the Alaska House, at the number on Seventh street given above, and who has also been known as "Dot Defourcy." This latter name, with the address, 470 1/2 Seventh street, was written on the last page of the missive of death and in the handwriting of the deceased. This missive appears above in connection with this article.

LADY IN BLACK.

Before the remains were laid out, a lady attired in black, with a fashionable mourning hat and with her face partially hidden behind a black veil, made her appearance at the Morgue. She was permitted to see the remains and then left the place, but was met by a TRIBUNE reporter, to whom she admitted that she was the Miss Seymour, to whom reference was made in the missive last penned by the deceased. She spoke in tremulous tones and was evidently subject to painful emotions, as she stated that she was too much moved to say anything regarding the suicide's deed. At the time she had not read the letter, which had been directed to her by Conyers.

REBELS MADE A LAST STAND BUT LOST FIGHT.

Government Forces Won the Final Battle and the City Was Strewn With the Dead.

SOLEDAD, Venezuela, July 21.—Ciudad Bolivar was captured at 11 o'clock last night, after fifty-two hours of a desperate struggle and horrible carnage, during which great courage was shown on both sides.

The jail and the capitol were the centers of the most severe fighting and many were killed or wounded there.

When these places were captured only a few blocks behind the capitol remained to be taken. At midnight the fusillade ceased and the silence of death reigned all the rest of the night over the city.

At 5 o'clock in the morning the correspondent of the Associated Press followed General Riveras, the Government commander, who met General Gomez, the Venezuelan commander-in-chief, near

the capitol and confirmed the announcement that the capitol, the jail and all the rest of the city was in the hands of the Government soldiers.

General Gomez informed the correspondent that the resistance at the capitol had been of a nature worthy of a better cause; that each yard of rampart was covered by the dead, and that General Nicolas Rolando, the last representative of the revolution and his two lieutenants, Generals Fabio and Guzman, and General Vasquez had been taken prisoners.

No adequate idea can be gained of the scene which Ciudad Bolivar presents. The city appears to have been swept by a cyclone, accompanied by a conflagration.

MAY HALF-MAST FLAG

FIRST MENTION OF POPE'S DEATH MADE BY RED MOND.

OREGLIA GETTING WEARY.

LONDON, July 23.—The first mention of the Pope's death in Parliament occurred this afternoon when William Redmond, an Irish Nationalist, asked if the flag on the Victoria tower, Westminster, and those on the public grounds, would be half-masted out of respect to the late Pope. Victor Cavendish, treasurer of the household, replying for the government, said there was no precedent, but the question of ordering the half-masting of the flags on public buildings was now under consideration.

HELP VICTIMS OF THE TORNADO.

PATERSON, N. J., July 23.—Mayor John Hinchcliffe today called together the leading citizens of Paterson to devise ways and means of providing relief for the people most sorely stricken by the tornado, which wrought death and destruction in this city yesterday.

Two thousand began today clearing the wreckage strewn in the streets by the storm. In summing up the tornado's work, Paterson today counts three dead, 100 injured, fifty families made homeless and a property loss estimated at \$200,000. The tornado mowed a path of destruction 400 feet wide from the southwest to the northwest of the city. About twenty-five persons are under treatment at the hospitals. It is expected all will recover.

Cardinals Meet and Appoint Various Committees.

ROME, July 23.—Cardinal Oreglia, dean of the Sacred College, is feeble and worn out owing to his long unaccustomed exertions.

His life as a cardinal was one of uninterrupted serenity, and he now practically bears the entire burden of the church, and also the minute details of the preparations for the obsequies and the conclave.

Notwithstanding this, he opened this morning's meeting of the Congregation of Cardinals.

The number of those present today was augmented by the presence of two new arrivals, Cardinal Scampa, archbishop of Bologna, and Cardinal Bosch, archbishop of Ferrara.

The former was especially warmly welcomed by his colleagues, as being one of the most prominent cardinals of the Sacred College and because he is mentioned among those most likely to succeed Pope Leo.

It is being remarked that Cardinal Oreglia's responsibilities have softened his austerity and that he is directing

FLOWER GROWERS MEET

STATE HORTICULTURAL ALLIANCE PASSED RESOLUTIONS LAST NIGHT.

The meeting of the California State Horticultural Alliance, Oakland branch, met in the rooms of the Oakland Board of Trade last evening. The meeting was largely attended, not only by members of the Alliance, but by several ladies and gentlemen who are interested in the cultivation of flowers. President Pryor occupied the chair. Mr. Joseph Partridge, one of the leading rose culturists of the State, read a very interesting paper on the subject of roses and how to bud the rose successfully. His talk was made very entertaining and instructive by the illustration of the budding of roses.

As the objects of the Alliance are to encourage a love for flowers and to

interest all classes in horticulture, the members placed themselves on record in the following resolutions:

"Whereas, The Adams estate heirs have presented to the city of Oakland, a large plot of land beautified with flowers and trees, of rare varieties; and

"Whereas, The California State Horticultural Alliance, Oakland branch, in meeting assembled, do hereby greet this act of generosity and expression of interest in the furtherance of the art of horticulture; and

"Whereas, Such public parks are of inestimable value in imbuing in the hearts of the young a love for flowers and Nature; therefore, be it

"Resolved, That the California State Horticultural Alliance, Oakland branch, do hereby express our gratitude to the donors of this magnificent gift to the city of Oakland; and furthermore,

"Resolved, That this organization express its pleasure in the acceptance of said park by the City Council of Oakland, and its faith in the integrity of the City Council and each member thereof, when, in the acceptance of the said park, they agreed to keep it up and make of it a beauty spot.

"Resolved, That the secretary of this Alliance transmit a copy of these resolutions to the City Clerk of the city of Oakland, and also to Messrs. Edison F. Adams, John C. Adams and Mrs. Thomas Prather."

It is the purpose to form a uniform rank here in the near future.

FOR A SHORT VACATION. ALAMEDA, July 23.—Miss Edna Metzger of 1170 Regent street and Miss Tot Decker will go to Santa Rosa tomorrow, where they expect to remain a couple of weeks.

IT WAS ACT OF CRAZY MAN

THEORY REGARDING ATTEMPT TO DESTROY LANDREGAN HOTEL.

BERKELEY, July 23.—That the attempt made on last Saturday night to destroy the Landregan Hotel was the work of a lunatic is the opinion that is generally held in Berkeley. All danger of destroying the property was averted from the very first. The plan—that of filling the hotel with an explosive gas, which would be ignited from a jet left lighted—was so peculiar that it is hardly thought to be the work of a sane man. Mrs. Landregan claims to know nothing of the identity of the person who thus attempted to destroy her home. Others in town claim to know the person, and state that the act is the result of a demented condition of mind. They refuse to swear to a warrant.

The town authorities are inclined to scoff at the story. "The matter has not been reported to me as yet," said Marshal Kerns. "If it is as serious as it appears to be in the papers, in my opinion, the police officials would have been notified. I know nothing about the case, either as to whether the attempt at destruction was made, or to the person, such a person there was who made the attempt."

The knowing ones said, however, that it is the same person who attempted to burn the hotel a year ago.

HE CLAIMS AN ENGLISH EARLDOM.

LONDON, July 23.—The claim of William Tournor Thomas Poulett Viscount Hinton, the former organ grinder in the streets of London, who is a claimant to the earldom of Poulett was before the commission on privileges of the House of Lords today. The claimant, who is of striking appearance, was present with counsel, who requested an adjournment, as his evidence was not ready. Counsel for the defense was allowed to state his case, contending that it was impossible for the claimant to be a son of the late earl, though the earl's marriage to the claimant's mother was not denied. The hearing will probably last several days.

HE SHOT ONE OF HIS TORMENTORS.

CHICAGO, July 23.—Adolph Ehman, a member of the Arm of Charles Ehman & Company, mantle manufacturers, angered by the jeers of a crowd of union workmen while he was acting as guard over non-union men, shot and seriously wounded Robert Kuter, one of his tormentors, today. Ehman was arrested.

MOTHER JONES CANNOT MARCH.

NEW YORK, July 23.—Acting Police Commissioner Ebstain today refused a permit to march through the streets to "Mother" Jones and her "army" of textile workers. Mrs. Jones came over from Jersey City, where the "army" is, to make the application.

ALAMEDA, July 23.—Edward Walder of the Fire Department is the only Alamedan who will participate next Sunday at San Jose in the tug of war between the teams of that city and those of Oakland and vicinity. He has pulled in a good many contests and has never been on the losing side.

MANY DOG LICENSES.

ALAMEDA, July 23.—Police Sergeant Kamp, who issues the little tags that entitle dogs to roam at large hereabouts without fear of the poundman, reports that he has issued 378 of those badges of distinction the present month increasing the city's income to the amount of \$278. A singular coincidence is that exactly the same number of tags were issued in the first twenty-three days of the corresponding month of the last year.

MRS. SCOTT RETURNS.

ALAMEDA, July 23.—Mrs. W. K. Scott, wife of School Director Scott, returned yesterday from Santa Barbara where she has been enjoying herself for a couple of months.

ALAMEDA, July 23.—Last night was social night with Carita Chapter, No. 115, Order Eastern Star, and its hall was filled with those who enjoyed the evening to the fullest extent.

THE DEAD MAN IS IDENTIFIED

UNKNOWN WOMAN STATES THAT HE IS C. B. CRANDALL.

BERKELEY, July 23.—The straightest clue yet to the solution of the mysterious murder or suicide of the man who was found on Saturday morning near Brennan's barn in West Berkeley was furnished last evening when a mysterious woman, who refused to give her name, called at the morgue and almost positively identified the body as that of Cranston Bertram Crandall, a traveling salesman. If the woman's story proves to be true and the man is Cranall, the case of the man who held that murder was one will be greatly strengthened. That the identification is a true one is believed from the fact that it was made not only from the man's general appearance but from marks and other peculiarities upon the body. These the woman sought out for herself. After a careful examination, she turned to Deputy Coroner Straight and said: "I am almost positive that it is Cranall. If it is he, he has been murdered for Bert was not of the kind that would commit suicide."

According to the woman's story, Cranall was the former husband of Mrs. Wallace Detrol, who now resides at Vina, Tehama county. They were divorced in Chicago about three years ago, the reason being Cranall's intemperate habits. Since then the woman stated, he had reformed and straightened up.

The interesting portion of the story is, however, that Cranall brought his parents, expected to fall heir to a considerable sum of money. In order to safeguard her ten-year-old child's interest, who is Cranall's daughter, Mrs. Detrol has kept through friends a very close track of Cranall. It is known that he has been around the bay and it is stated that he was his desire to invest money in or around Berkeley. The morgue officials now desire Mrs. Detrol's assistance in an attempt to bring her to Berkeley.

Deputy Coroner Straight would say nothing further either in regard to the woman or her story.

"I have her address," he said "and she will be here at the inquest."

"Was this woman a friend of Mr. Cranall or of his former wife, Mrs. Detrol?" was asked.

"That I refuse to answer," he said. "Crandall, if it is Cranall, was left-handed. The dead man wore nose glasses, which from the fact that the chain was on the left hand side, the revolver was found in his right hand. If the woman's story is true, this will be further evidence of murder. Cranall also had one of the fingers of his right hand tightly drawn. The second finger of the dead man's right hand is mis-shape, evidently from the effects of a felon. Other marks and peculiarities particularly of the ears and feet correspond exactly."

"The woman's story appeared very straight and reasonable to me," said Deputy Coroner Straight and if it is Cranall he was murdered. Whether or not it is Cranall, you can say that the man met with foul play. There is not a single indication which could lead one to believe otherwise."

He was a member of the Hannoverian Verein.

PIONEER PASSES AWAY.

ALAMEDA, July 23.—Mrs. Sarah E. widow of the late Seneca Daniels, died yesterday at the residence of her daughter, Mrs. J. H. White, 1315 Railroad avenue, aged 69 years and 11 months. She was a native of New York and had resided here fourteen years and in California forty-two years. She was the mother of Elmon, Frank and Fred Daniels, and Mrs. J. E. White, Mrs. C. D. Stuart and Mrs. E. J. Simon. Funeral will be Friday at 2 p. m. from the residence of Mrs. White, thence to Petaluma for interment.

EDWARD REVIEWS TROOPS

THOUSANDS OF SOLDIERS PRESENT A BRILLIANT SCENE.

DUBLIN, July 23.—King Edward today reviewed 15,000 troops and 5000 men of the naval brigade in Phoenix park. The weather was most favorable, bright sunshine permitting the wearing of summer costumes and the consequent color effect.

When the ground was packed by the tens of thousands of spectators it made by far the most brilliant scene of the many witnessed since their Majesty's arrival in Dublin. It was the largest muster of troops ever seen at a review in Ireland. The Duke of Connaught was in command.

The King, who wore the uniform of a field marshal, was attended by the Lord-Lieutenant, the Earl of Dudley, and a numerous suite.

Prior to leaving the vice-regal lodge, his Majesty presented colors to the Royal Irish Militia School.

SENDS TO LONDON BY NEW YORK

ASSOCIATED PRESS WAS FIRST TO GIVE NEWS OF POPE'S DEATH.

PARIS, July 23.—The Figaro today says: It is a serious fact that it was from New York that the news of the death of the Pope reached London. As soon as he was informed of the decease of the Pope, the correspondent of the Associated Press at Rome called New York by all of the various routes. One of these messages was sent by the French cable from Rome to New York and arrived at its destination in a few seconds, in spite of the crowded condition of all the lines starting at Rome and ending at New York. The New York office of the Associated Press in its turn called the news to the Reuters Agency in London, which had not yet heard of it, although there exists a direct wire from Rome to London. The satisfaction of the Associated Press can be conceived. We understand it has cabled its congratulations and thanks to St. Bernard, the under secretary of state for posts and telegraphs (of France), and to the French Cable Company.

HIGH MASS AT E. S. PILLSBURY HIS WIFE MAKES STATEMENT

PONTIFICAL MASS WILL BE CELEBRATED NEXT SUNDAY.

SAN FRANCISCO, July 22.—A solemn high mass was offered this morning at 10 o'clock at St. Mary's Cathedral for the repose of the soul of the late Pontiff, Leo XIII, and it was attended reverently by a large congregation. Among the worshippers were many members of the religious orders of priests and nuns.

The Cathedral was most effectively draped in black and silver. The facade of the altar was draped with hangings of black velvet fringed with silver and lined in folds. The large stained glass window back of the altar, representing the Assumption of the Blessed Virgin, was hidden behind a black curtain, which fell below the altar, throwing out the white marble finish in striking relief, and the altar itself was bare, with the candles and the altar cloth like the candles draped with black velvet trimmed with silver. The doors in front of the altar were also decorated in the symbols of mourning.

VICAR GENERAL OFFICIATES.

The solemn requiem was celebrated by the Rev. J. J. Pendergast, the Vicar General. He was assisted by the Rev. J. J. Pendergast, who officiated as deacon of the mass, and by the Rev. Charles A. Pendergast, who acted as subdeacon. For the musical accompaniment the division of the choir, under the direction of the organist, Robert J. Harrison, rendered a beautiful setting of the mass of Requiem and Communion.

Archbishops Riordan and Montgomery were present, but did not officiate as the service was the Requiem mass directed by Archbishop Riordan to be celebrated by the pastors of the parishes, and was accordingly sung by Father Pendergast, the pastor of the cathedral parish.

PONTIFICAL MASS SUNDAY.

At the conclusion of the mass Archbishop Riordan made a brief announcement that the solemn pontifical mass would be celebrated at 10 o'clock next Sunday morning at St. Mary's Cathedral. The clergy and religious orders of the diocese have been given special invitations by the Archbishop to attend this service. There will be seven archbishops and the nearly 100 priests of the diocese will be present. The pontifical mass of requiem for the Pope were celebrated by the pastors of the different parishes yesterday in the churches on altars draped in black.

BODY FOUND IN CANAL

JAMES J. DONAHOO WAS NOT A VICTIM OF FOUL PLAY.

SACRAMENTO, July 22.—A special message to the Bee from Fresno today states that the body of James J. Donahoo, who disappeared last Friday night, was found this morning in the canal.

The body had lodged against the grating of the canal, which prevents the entrance of debris into the water wheels of the powerhouse.

It was somewhat disfigured, but this is said to have been due to contact with the grating.

It was supposed that Donahoo may have met with foul play, but it is now regarded as certain that he fell into the canal while walking home from a dance which he attended Friday night.

Donahoo's relatives reside at Suisun.

FASTER TIME TO SOUTH

OPENING OF SANTA SUSSANA TUNNEL WILL MAKE DIFFERENCE.

SAN FRANCISCO, July 22.—G. A. Parkyn, general passenger and freight agent for the Southern Pacific in Los Angeles, who arrived here yesterday, attended a conference today with Manager Agnew of the operating department, Passenger Traffic Manager McCormick and General Passenger Agent Goodman.

It is expected that the time between here and Los Angeles will be considerably shortened when the new Santa Sussana tunnel is opened in August.

The officials will be in conference several days, arranging a schedule to provide for seasonal hours of departure and arrival in this city and Los Angeles.

SECRETARY IS CLOSELY QUESTIONED.

SAN FRANCISCO, July 22.—Secretary Willcutt of the United Railroads was again on the stand today in the current investigation. He was closely questioned regarding the comparative rate of pay of the men under the previous, present and proposed schedules. He claimed that the men were better off now than before the strike.

TROOPS WILL BE ESCORTED.

HAVANA, July 22.—When the remaining United States troops leave here they will be escorted by a Cuban detachment and will be thanked and congratulated by President Palma for their exemplary conduct. The government is proceeding with the negotiations for the purchase of the private lands within the naval station's area.

If you haven't found out Schilling's Beat, you and Schilling are losing some money.

E. S. PILLSBURY HIS WIFE MAKES STATEMENT

HE HAS BEEN APPOINTED ATTORNEY FOR THE SANTA FE.

SAN FRANCISCO, July 22.—E. S. Pillsbury has been appointed attorney for the Santa Fe road to succeed the late Judge Sterry, who died recently in Los Angeles.

The appointment of a San Francisco man leads to the belief that the law department of the Santa Fe will be transferred from Southern California to this city.

Mr. Pillsbury is one of the most prominent corporation attorneys in the State. He was formerly connected with the law department of the Southern Pacific Company.

FOOD QUESTION DISCUSSED

DELEGATES TO THE NATIONAL CONVENTION HEAR ARGUMENTS.

ST. PAUL, Minn., July 22.—Delegates to the national convention of the Pure Food Commissioners, today listened to the manufacturers' side of the food question and the principal speakers were R. N. Allen, secretary of the exportation division in Kentucky, who spoke on "Regulation of the Food Industry," and L. M. Frasier, of Camden, N. J., a manufacturer, who answered his arguments.

Mr. Allen showed by statistics that there were three billion dollars worth of food products manufactured in this country, which should properly come under the police power of the state in order to preserve public health. He said that the regulation of food standards should depend entirely on scientific investigation.

Mr. Frasier, in reply, said that the manufacturers were willing to meet the commissions of the different states more than half way. He insisted that there were certain food products which require preservatives and that until some other method of preserving food is developed, the laws should not be so stringent as to drive legitimate industries out of business.

WILL NOT WORK IF MILLER DOES.

WASHINGTON, July 22.—President Barrett of the local Association of Bookbinders, today announced that every bookbinder will quit work if W. A. Miller, assistant foreman of the Government printing office, whose dismissal from that office the President recently revoked, is permitted to resume work. The union officials today sent a communication to Secretary Cortright of the Department of Commerce and Labor, strongly expressing their position against Miller's re-instatement. The union also gave out a statement reciting the developments in the case and charging Miller with using scurrilous language about those employed under him and slandering the bookbinders' organization of which he was a member.

GENERAL WOSY GIL ELECTED PRESIDENT.

SAN DOMINGO, Republic of Santo Domingo, July 22.—Congress has proclaimed the election of General Wosy Gil as president of Santo Domingo, and General Decampas as vice-president. The copper mines in the San Cristobal district are turning out to be rich and the oil from the Azua territory are said to be valuable. The country is quiet and business is improving.

KING REPLIES TO IRISH PEOPLE.

DUBLIN, July 22.—Replying jointly to the other addresses, His Majesty said he rejoiced to hear of the awakened spirit of hope and enterprise among his Irish people, which will full promise for the future. It would be a source of profound happiness to him if his reign was coincident with a new era of social peace and industrial and commercial progress for Ireland.

BOY DROWNED IN A TANK.

BAKERSFIELD, Cal., July 22.—The eight-year-old son of George E. Squires, a well known old man, was drowned in a tank of the Huelston Water Company at Sunset last evening while heroically attempting to save the life of a companion. About 7 o'clock Verley Jewett, a nine-year-old lad, went into the tank to swim. The water was over his head and he called for help. The Squires boy at once went to his assistance, but the strong sulphur and other gases in the water overcame him and he sank. Help was soon summoned and the bodies removed from the tank, but all efforts to revive young Squires were without avail.

REMOVED FROM POSTOFFICE.

WASHINGTON, July 22.—Charles Hedges today was removed from the office of Superintendent of Free Delivery of the Postoffice Department on the charge of falsifying his diary and loaning his traveling companion it. He is charged that he reported himself at various places, when, in fact, he was not at those places on the dates mentioned, in some cases being hundreds of miles away.

MRS. LA BOUNTIE SAYS HER HUSBAND BECAME INSANE FROM OVERWORK.

BUFFALO, N. Y., July 22.—Mrs. Frank La Bountie, the wife of the confidential clerk and bookkeeper for the law firm of Wilson & Smith, who, it is alleged, used hundreds of thousands of dollars of his employers' money to carry on an extensive real estate deal, made a statement today in behalf of her husband. She said that her husband's operations were on a more extensive scale than thus far had been admitted. The figures now are approaching the half million mark and the investigation is not nearly finished.

"My husband," said she, "has turned over to the firm property valued at \$400,000. When all is over Wilson & Smith will be able to realize a profit of at least \$100,000 from the operations of a man who was insane on the subject of real estate speculation and whose mental derangement was due entirely to being overworked."

La Bountie's salary from Wilson & Smith was \$25.00 a month.

"I wish to state," said a member of the firm, "that every estate and client of ours will be reimbursed for any losses."

SHIPPING TRUST IN BAD WAY

CREDITORS MOVE UP ON THE PROPERTY IN SAN FRANCISCO.

SAN FRANCISCO, July 22.—As a result of the action taken by the Mercantile Trust Company in the East against the United States Shipbuilding Company, an auxiliary suit was filed in the United States Circuit Court by E. S. Pillsbury, Works and further asserts that all property thus held under title lease is subordinate to the lien on the mortgage or deed of trust sought to be foreclosed. The petitioners pray that the mortgage may be decreed a lien on the property mentioned and that the United States Shipbuilding Company and James Smith, complainants for the bondholders secured by the mortgage and that in default of payment the property be sold under a court order.

The court is petitioned to issue an injunction forbidding the United States Shipbuilding Company from selling or conveying any interest in the property mentioned, and it is also asked that the customary equity summons may be issued for the purpose of bringing the case into court.

ANOTHER RECEIVER.

PORTLAND, Maine, July 22.—At the close of the hearing in the United States Circuit Court today on the bill in equity brought by Roland Conklin and others against the United States Shipbuilding Company for the appointment of James Smith, Jr., of New Jersey, as auxiliary receiver of the company for the Maine district, Judge Putnam intimated that he would enter a decree that the Bath Works and the Judge Windlass Company of Bath be allowed to complete their contracts before being turned over to the receiver. The Bath Company has several large contracts on hand including the construction of the United States cruiser Cleveland and the battleship George.

A formal decree will be entered later.

WILL NOT CHANGE STATEMENT

U. S. GOVERNMENT INTENDS CHINESE PLEDGES SHALL BE KEPT.

WASHINGTON, July 22.—Notwithstanding the publication of dispatches from various foreign cities, questioning the extent of promises made to the American Government by China and Russia respecting Manchuria, the officials here positively decline to add to or take one word from the statement which was published from Washington just before the departure of Secretary Hay, to the effect that satisfactory assurances had been received that two or more Manchurian ports would be opened to the world's trade. It is quite certain that China, which is here regarded as the sovereign power in Manchuria, made these pledges and it is equally certain that the United States Government fully intended that they shall be kept. The details referred to in the original statement as requiring a near adjustment are still unsettled but the State Department is patient, resting in the full confidence of the opening of the ports required within a reasonable length of time.

SEES MANY QUEER THINGS.

John Ellis, aged 39 years of age, was sent to the Napa Asylum for the Insane today as suffering from senile dementia. He lives at 835 Thirty-fifth street and is a victim of a wild imagination. He sees all manner of things. He complained today of a flock of ducks and geese that had eaten his corn. He is a native of Bloomington, Illinois.

SHAMROCK IN TROUBLE.

SANDY HOOK, July 22.—Shamrock III broke her gall today during a thick fog when the Shamrocks were half way from the outer mark, running back to Sandy Hook lightship. The racers were hidden in the fog for an hour, but both reached the Hook safely. Shamrock III was leading by three minutes, 42 seconds at the turn of the outer mark.

SUB-STATION POWERHOUSE.

SAN FRANCISCO, July 22.—The new sub-station powerhouse of the United Railroads at Millbrae is now in operation. It will be used primarily to supply power for the San Mateo electric line which will be in complete running order in a short time.

Manager Ellis of the Telephone Company will have "John D." watered, issued for the arrest of the alleged assassins. It is believed that he will also petition the Mayor to place police protection.

KILLED HIMSELF FOR A WOMAN.

(Continued From Page 1.)

SAM CONYERS.

On expressing a desire to hear in advance of its formal delivery to her by the Coroner, the TRIBUNE reporter read the lines in which poor Conyers had her good-bye with the law thought that entered his mind in life. The woman sobbed and turned away and then asked if any steps had been taken towards Conyers' burial. She was informed that nothing had been done in the premises and then stated that she would attend to his burial herself.

ASKED HIM TO BE FRIENDLY.

The reporter asked Miss Seymour if she had visited Conyers at the New Grand lodging-house last Saturday night and given him a letter.

She frankly admitted that she had done so and asked if that letter had been found among his effects. The reporter replied that, to his knowledge, that letter had not been discovered, but asked Miss Seymour as to what the letter was.

Miss Seymour replied that she had simply told him that she had heard that he was offended because of the Alcazar island lover and that she wanted to assure him that he ought to dismiss that subject from his mind.

WOMAN'S SORROW FOR HASTY WORDS.

Among the papers of Conyers found was a card of the Berkeley saloon on Washington street, on which, in pencil, was written the following words: "What more can I say?"

Miss Seymour was asked if she had written that note and replied:

POURTRAIT FOR HIS BREST.

"Yes, you know what mean things sometimes people will say to one another."

"This was when we first separated some time ago."

"I told him I was going to send a button portrait of myself to the island," he said that it ever he did he wanted me to put that little portrait of me on his breast. And I am going to do it."

CRIED OVER PICTURES.

Miss Seymour then reached into a drawer and took out the button portrait of herself and another one of Sam Conyers of the same style, and cried over both of them with a great deal of feeling.

In the effects left by Conyers were cards showing that he was a member of Oakland Branch No. 1, the International Home-Movers' Union; that he was also connected with several organizations, and that he was a member in good standing in all of them.

BROTHER IN ENGLAND.

His only known relative is a brother named George Willis Conyers, who runs a co-operative store at Lewmillard, near Wakefield, Yorkshire, England. Letters in possession of Conyers show that this brother was a member of the corporation committee at that place in honor of King Edward in June, 1902.

MADE WAY FOR THE MORGUE.

Curiously, while at his occupation as a house-mover, Conyers assisted in moving a building of the lot at Thirtieth and Jefferson streets to clear the way for the erection of the building where the morgue is now located. Among his effects was found a picture showing the house in the process of being moved. Now his body lies on a slab in the building erected on the site of the one which he helped to move.

WAS BEATEN BY SIXTY MEN.

With his face badly battered up, Leon La Fleche, who is working in the place of the linemen on a strike, came before Chief of Police Higgins this morning and declared that he had been attacked by a gang of about sixty men early this morning at Ninth and Webster streets. He stated that among the gang he recognized some who had warned him in front of the telephone office that he would be asaulted if he did not desist from working as a "scab."

Manager Ellis of the Telephone Company will have "John D." watered, issued for the arrest of the alleged assassins. It is believed that he will also petition the Mayor to place police protection.

affairs with firmness, but without harshness, allowing the cardinals every consideration and giving constant proof of equanimity.

At this morning's meeting of the Congregation of Cardinals, a committee, consisting of Cardinals Casali, Macchi and Della Volpe, was appointed to supervise all the arrangements in connection with the conclave.

Doctors Laponi and Pelegallo, a surgeon, Professor Cugati, and a drugist, were appointed to attend the cardinals while they are shut up.

Finally, the cardinals appointed a committee to receive the case containing the papal treasure from the Congregation of Briefs, whose work is suspended until Pope Ed is elected, and to receive the papal seals from the Apostolic chancery.

LAUNCH STRUCK AT ISLAND.

BIDDEFORD, Maine, July 22.—A Government launch, which was being run from the Charlestown Navy Yard to Portland by Lieutenant George Stevens and seven men of the Portland Naval Reserve, struck today on the southern point of Beach Island and was wrecked. A boat from the life-saving station brought ashore the crew of the launch without difficulty. The launch was about forty feet long and of light construction. She went on the rocks in a fog.

WERE TAKEN OUT OF TOWN JAIL.

LEXINGTON, Ky., July 23.—Curtiss Jett and Thomas White, indicted for the murder of J. B. Mareum at Jackson, who have been in jail here for safekeeping, were quietly spirited away from the Fayette County Jail this morning, put on the Louisville and Nashville train and taken to Cynthia, where they are to be tried by Judge Osborne July 27th. Only the officials of the jail knew of the movement.

SOUFRIERE IS STILL ACTIVE.

KINGSTON, Jamaica, July 23.—The Soufriere has agitated slightly since July 15th, emitting puffs intermittently, which caused clouds and low rumble. A severe earthquake shock was felt at 1:40 a. m. Tuesday, accompanied by a subterranean sound of cracking, which shook the buildings here and threw the people into a state of consternation, fearing that a disastrous phenomenon would follow. It is an earthquake, similar to that of July 17, 1902, which preceded the eruption of September 3, 1902.

BOATS SAIL FOR THE ASTOR CUP.

NEWPORT, R. I., July 23.—Seven sloops and three schooners started in the Astor cup races today. Last year the New York Yacht Club adopted a new measurement rule limiting the draft of all yachts to be eighteen feet. The three cup yachts this year all drew more than eighteen feet, so are barred from competition, but the club offered a special cup for cup-defender candidates.

FOUND GUILTY OF MANSLAUGHTER.

PEORIA, Ill., July 23.—The jury in the case of Jack Mura, who has been on trial for more than a week for the murder of Joe Cisirone, today found the defendant guilty of manslaughter. In a duel with knives at Chillicothe two months ago, Mura inflicted nineteen stiletto cuts on Cisirone. They were Italians and the quarrel originated when they were boys in Italy. Mura's plea was self-defense.

MADE A BID ON THE BIG CANAL.

In the matter of the construction of the new government canal in Nevada, running between Clark's station and Wadsworth, the E. B. and A. L. Stone Company is among the bidders for the work. The canal, which is to cost something over \$2,000,000, will open up a large area of arid lands to settlement and is one of the most extensive government projects planned for that State.

The Stone bid for the work was \$1,161,944. As the company at the present time has a large gang of men at work in Nevada on the construction of the cut-off along the Southern Pacific, it is probable that their bid is lower than those of bidders who would be compelled to import their gangs into the State.

TRUSTEE ALEXANDER VIOLATED THE LAW.

Wallace A. Alexander, a trustee of the Free Library, is liable to removal from office because of his failure to ask permission of the City Council if he might take a vacation. Alexander left for the State last night, but he will remain away thirty days longer.

The City Charter provides that officials of the city must leave the State without first having obtained the consent of the governing body.

As Trustee Alexander failed to adhere to the provisions of the City Charter, the other members of the board say that he is not entitled to sit with them on the instance of Trustee Alexander that the salaries of three of the employees of the Free Library were reduced.

LADIES DID NOT GET DISAPPOINTED.

When Kelly & Liebes, 120 Kearney street announced their great removal sale and that prices will be so low that all the ladies would talk about the sale, they did not disappoint the public. The cloaks, suits, skirts and waists are sell-

ing at such low prices that the store is continually crowded with buyers. Special new bargains are placed on the counter daily. Everybody talks about the \$30 tailor suits selling at \$12.50.

DIED SUDDENLY AT HIS HOME.

NEW YORK, July 23.—Frederick W. Hollis, secretary of the American delegation to The Hague peace conference, and more recently member of the International Court, died suddenly at his home today, Yonkers.

George Frederick W. Hollis was born at Yonkers, Pa., July 1, 1857, was graduated from Columbia College in 1878 and studied also at the University at Leipzig. He was a delegate at large to the New York Constitutional Convention in 1894, member of the Peace Conference at The Hague, from the United States in 1899 and was recently member of the International Court. He was the author of a number of books, including numerous lectures and essays on political subjects.

Mr. Hollis died of heart failure.

WAS NOT INSANE.

Mrs. Katherine Albach, who was confined in the insane ward at the Receiving Hospital on the complaint of her husband, who charged her with being insane, had her examination yesterday and was discharged by Judge Hall. The testimony showed that she was somewhat peculiar, but it was shown clearly necessary to send her to an asylum. She is 56 years of age. The Albach home is at 940 Adeline street.

HERE ON A VISIT.

Mrs. J. C. Shanks and Mrs. J. D. Rogers of Denver, Colo., are guests of Mrs. Tony Lubelski of 320 Telegraph avenue. Mrs. Shanks and Mrs. Rogers are sisters of Mrs. Lubelski and are here on a pleasure trip. They will visit all points of interest. Before their return for home they will sojourn in Southern California for several weeks, visiting Coronado, Catalina Islands, Redlands, Riverside, Santa Barbara and Los Angeles.

GYPSY BAND WILL HAVE TO MOVE ON.

The people living in the vicinity of Fifty-eighth and College avenue have complained to Chief of Police Hodgkins that a camp of about fifty Gypsies is causing them considerable annoyance. It is stated that the campers make threats against the residents of the neighborhood when their demand for money and food is refused. The authorities will take steps to force the band to move on.

INCREASED THEIR WAGES.

COLUMBUS, O., July 23.—The Federation and Independent Window Glass Companies of Columbus have granted an increase of about fifteen per cent to the employees of their various plants who belong to the threatened Lumber organization, officially known as the Window Glass Workers' Association. About 6000 men will be affected.

After a brief period in fourth place yesterday the Recruits dropped back into the tail end by dropping the game to Seattle by a 6 to 3 score. Both teams put up a fine fielding game, but the Recruits were hit hard and more than when they were in the lead.

Portland repeated Tuesday's operation yesterday afternoon and defeated the Senators 8 to 4. The Browns did not play all of their season in the second and third innings.

The game across the bay yesterday afternoon between Los Angeles and San Francisco was a highly satisfactory one from the spectators' point of view. The errors were few and far between and both teams hit hard and often.

Tommy Leahy had a little batting festival all by himself yesterday at the Eighteenth street ball in San Francisco and all pitchers looked like to him. He fanned his batting average to the top of four and out of five times up and had the honor of giving in, even of the nine runs made by his team.

Portland is in fourth place for the first time this season. The Browns have been playing 2001 ball during the last month and they have crawled up steadily from a percentage below 550 to their present mark of 412.

Lehman has a story by the name of McGilgigan, who is playing with the team in the present series against Seattle. So far, he has not distinguished himself at the bat, although his fielding has been fairly good.

"WATERMAN" CORRIGAN IS DEAD. CHICAGO, July 22.—James Corrigan, the original "Waterman" of Chicago and a cousin of the later Archbishop Corrigan of New York is dead, aged 64 years. Mr. Corrigan was a native of County Monaghan, Ireland. He came to the United States in 1848. When a keen head for business, he soon found employment in furnishing an automobile community in Chicago with pure drinking water. He filled a barrel several times a day with water from the lake and peddled the contents at two cents a barrel. He continued this work for ten years. Mr. Corrigan's last work was in the water department of the city.

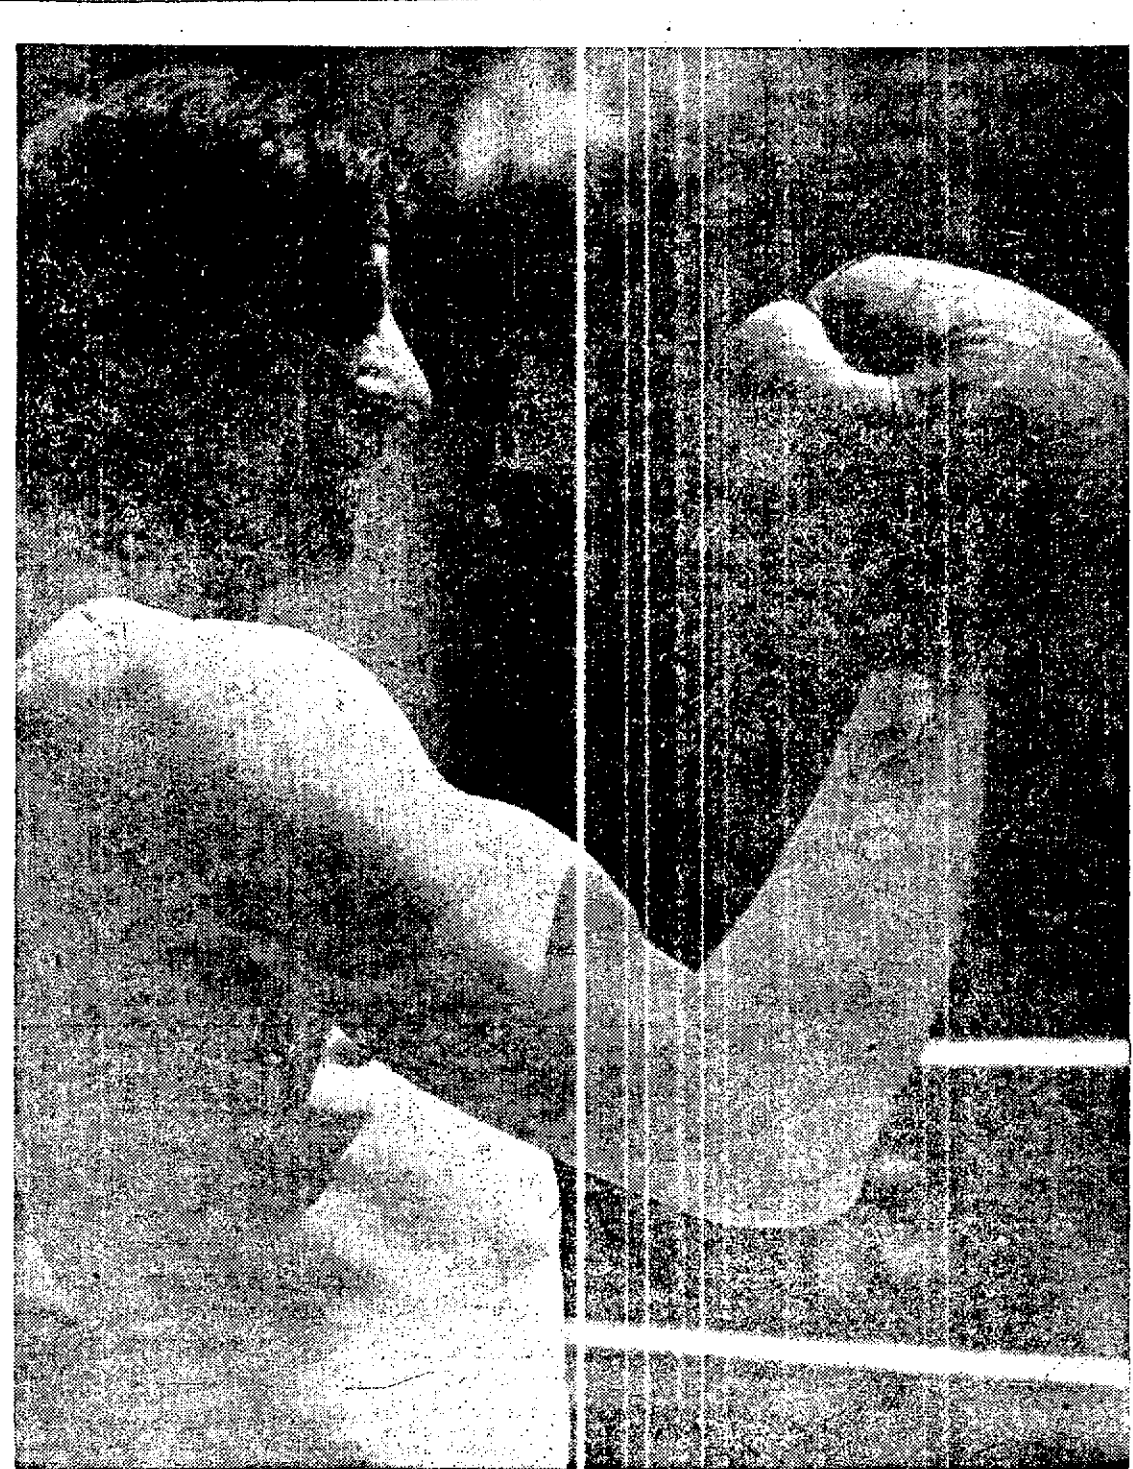

FRENCHMEN AT MANSION HOUSE. LONDON, July 23.—The French senators and deputies representing the international arbitration group, accompanied by a number of British members of Parliament, were formally received today by Lord Mayor Samuel at the Mansion House. The Frenchmen afterwards inspected the Stock Exchange and the financial district.

MARTINEZ, July 23.—For the second time within a week, the prisoners confined in the County Jail at this place, had planned to escape by means of a crude key made of tin by one of the prisoners, J. E. Barron, held on a burglary charge.

TOMMY RYAN AT FOR SECOND TIME HE FAILS. CROLL'S.

THE PREMIER MIDDLE-WEIGHT PAYS JIM CORBETT A VISIT. BRIGGS STAYS TEN ROUNDS WITH YOUNG CORBETT AT BOSTON.

There was considerable excitement over in Alameda yesterday when Tommy Ryan, the middle-weight champion arrived at Cicli's garden to visit Jim Corbett. Ryan, it will be remembered, taught Jim Jeffries "The Manly Art," that enabled him to gain the title of champion heavy-weight of the world.

At the present time Ryan and Jeffries are not on friendly terms. In the long private conference yesterday between Corbett and Ryan, it is not unlikely that the former learned many of the weak and strong points of the champion.

Ryan watched Corbett train for a while and apparently was greatly pleased with what he saw. He said, "The sporting world knows that Jeffries and I are not on friendly terms and anything I say about Corbett will be taken with a huge grain of salt, but I am in deadly earnest when I say that Corbett's condition surprised me and I believe that he will either beat the champion or give him the hardest run he ever had in his life."

Will he be in Corbett's corner on the night of the fight? Well, that would be telling something I am not sure of at present, but I will not be far away. I do not consider that a fair question. My health is poor, and I brought my family to the coast for an outing. It is not the first trip, and I like the place best of all. What I do in a pugilistic way is a secondary matter.

There has been a revival in amateur baseball circles within the past few weeks and new clubs are coming into existence almost every day. The last to come forward is the Nob Hill team, whose ages average under fourteen years of age. Following is their challenge:

WEDDING BELLS MAY RING. Tonight in San Francisco Miss Julia May Gifford of Chicago and Robert Fitzsimmons will be joined in wedlock, that is, if the young lady arrives from the East in time.

Fitz has been stoutly asserting ever since he arrived from Chicago that the wedding was not to take place for a year yet. However, inasmuch as he has gone down to San Francisco from his training quarters at Harbin Springs and Miss Gifford is coming from the East to meet him there, it is not at all improbable that there will be wedding bells ringing.

The couple will remain a few days in San Francisco, and then go to Harbin Springs. There, it is rumored, they will be greeted most royally, for Fitzsimmons is the most popular man at the resort. Miss Gifford is preparing a great celebration in honor of the happy pair.

NATIONAL BUREAU OF MEDICINES. NEW YORK, July 23.—A joint committee appointed by the American Medical Association and the American Pharmaceutical Association to study and report on the plans of the proposed national bureau of medicines and food, is said to have obtained information that a majority of manufacturers of proprietary medicines favor the movement. The object of the bureau is to secure uniformity of standards in medicines and food. Those manufacturers who are opposed to the movement say that the reputation of the individual house is sufficient guarantee of the quality of its product.

WELCOME THE VETERANS.

Mayor Olney's appeal to the citizens of Oakland to provide a fitting reception for the Veterans of the Grand Army of the Republic should meet a spontaneous and sympathetic response from all classes. A visit from these gray and honored men—heroes of a mighty conflict and preservers of constitutional liberty—is to be esteemed as a high privilege. To welcome them with every mark of consideration is a duty as well as a labor of love.

Hence we are confident the patriotic and public-spirited citizens of Oakland will respond to the Mayor's stirring invitation with zeal, cordiality and unanimity. It is something we owe ourselves as well as our distinguished guests to do.

Seventeen years ago the Grand Army visited Oakland during the period of the grand encampment in San Francisco. Alameda Day then was an occasion long to be remembered. The coming visit of the veterans on the twenty-first of August should be made still more memorable. In all likelihood it will be the last general assemblage of the soldiers of the Civil War on these shores. It will therefore be our final opportunity to honor them as a body and receive them as guests in person.

Every sentiment of local pride, reverence for age and valor, national patriotism and hospitality prompts that the welcome be one fitting the character of the visit and the dignity of the city.

Mayor Olney has taken the initiative in a vigorous manner. He has appointed a representative committee and appealed officially and personally to the citizens. The response now rests with them. We trust the twenty-first of August will be made a red letter day in the history of Oakland. The time is propitious, and the city prosperous—and, remember, this is the last time the veterans of Grant and Sherman will ever march through the streets of Oakland.

Russia has at last consented that there shall be a few open doors in Manchuria, but reserves the right to close them whenever she sees fit. The concession appears to be made only for the purpose of leaving her hands free in case the impending scrap with Japan comes off.

The paragrapher of the Alameda Argus says Edwin Markham is overrated and that the chief literary merit of Charles F. Lummis is his cordury. It is hard to come up to the high standard achieved in editing a paper in Alameda. The San Francisco papers have signally failed, and the Oakland papers have never tried. If Edwin Markham would go over to Alameda and hoe corn his poetry might come in for appreciation—as a local product at least.

The recent editorial in the Outlook on Robert E. Lee is making a great hit, judging from the number of papers that have printed it without giving credit. In literature, theft is the sincerest form of flattery.

BOYCOTTING MILITIAMEN.

The aftermath of the recent anti-negro riots in Evansville, Indiana, indicates a deeply disordered public sentiment, and is entailing some disagreeable consequences. According to the Louisville Courier-Journal the Evansville labor unions are waging war on members of the local militia company, because they took part, under orders, in repelling the attacks on the jail. A dispatch to the Courier-Journal says at least forty members of the company have been driven from their employment by the boycott instituted against them on the part of the labor unions, who notified the Cook Grocery Company that Julius Bum, captain of the company, would have to be discharged. Several night assaults on the militiamen are locally ascribed to the labor people.

At this distance it is difficult to account for this attitude on the part of labor unions. Apparently the riot had no significance for organized labor. A negro named Lee Brown killed a policeman, who was trying to arrest him, to prevent him killing another negro. Labor was not involved in the affair at all. The original dispute was between two negroes and was entirely foreign to any controversy in which organized labor had an interest, and white sentiment was not concerned or aroused till the negro murdered the officer.

Why then have the labor unions instituted a boycott against the local militia for obeying orders? It looks as if the Evansville unions were being badly advised or are allowing their feeling over a distressing local tragedy to involve their organizations in troubles with which they have no legitimate concern. Sincere friends of the labor unions will regret to see them butt into a row which simply involves the maintenance of law and order, taking the lawless end of the controversy. We trust the example set at Evansville will not be extensively followed. If it is, a fundamental question will be raised as to the power of the civil authority to maintain itself.

IRELAND AND THE KING.

On the same day that King Edward landed in Ireland the British House of Commons passed the Irish Land Purchase bill by the decisive majority of 115.

There is a significance between the two events. Premier Balfour stated when the bill was placed on final passage that the King was fully informed as to the provisions of the measure, and was content with whatever Parliament decided to do. In effect, this conveyed His Majesty's approval of the bill to the Commons in advance of action. It is not usual for the sovereign to give forth any open expression regarding pending legislation, and the approval of the sovereign has not been sought since King George's time.

It is clear, therefore, that Mr. Balfour's announcement was in the nature of a ratification to the public. It was meant more for the Irish people than for the Commons. It conveyed to the people of Ireland the tidings that the King favored peasant proprietorship, and the extension of government aid to further it.

This of itself marks an important change in the attitude of the reigning family of Great Britain toward the Irish. It denotes a desire to conciliate as well as to better conditions in a portion of the empire that has long been distracted by bad laws, chronic poverty and discontent and political agitation to remedy grievances.

The cordial welcome accorded Edward and his Queen in Dublin indicates that the Irish appreciate the kindly feeling the British monarch entertains for them. They may not acquiesce in the claim of British sovereignty over Ireland, but they realize that the King is a friend, not an enemy. They know his influence has been cast in favor of measures to ameliorate the shocking conditions that have resulted from land monopoly, rack renting and absentee landlordism. A large proportion of the Irish do not regard him as the rightful ruler of their country, but they do recognize his friendly interest and his benevolent motives. They have received him in this spirit.

Edward shows wisdom in departing from the policy of treating the Irish as a subject people. In seeking their welfare, he has taken the right course to gain their good will. He will not have to complain of Irish loyalty if he once earns Irish gratitude and affection. Whether he can dissipate the desire of the Irish for political separation is a question, but beneficent legislation and a large measure of local self-government will weaken it and render it less militant and aggressive. When the Irish can own their own homes and manage their own domestic concerns, the chief grievance against the political connection with England and Scotland will disappear.

The head-line writer of the Bulletin places this caption over a \$300,000 defalcation: "A Little Short of Money." He would probably call a \$10,000 shortage a trifling discrepancy.

SOWING OF THE WIND.

The rabid partisans on both sides who are trying to bring about a desperate struggle between organized labor and organized capital have little realization of what such a struggle would mean. It would be a national calamity. It would be a blow to every interest in the country. Its terrible consequences would be felt by every class and condition—and no one would derive a benefit. Those who are egging on a fight, on either side, are endeavoring unwittingly to inflict a vast amount of misery and suffering on the American people. Their advice will bring disaster on labor, disaster on capital, disaster on millions not specifically arrayed on either side.

Conciliation and good feeling are what to encourage—not estrangement and animosity. Labor and capital must co-operate if industry is to be made productive and lucrative. They are not naturally enemies. They have interests that are antagonistic in a sense, but the overshadowing interest of both is bound up indissolubly. The differences are minor and altogether subordinate and incident to the relation of mutual benefit.

One cries out that labor must organize to fight capital. Another cries out that capital must organize to fight labor. Both cries are incendiary and mischievous. Labor and capital or labor and not to fight each other. They are engaged in a common cause. When they turn to fighting each other that cause is lost for the time being. When labor strikes and capital locks out, the purse of the capitalist is pitted against the stomach of the workman. The wheels of industry and commerce are blocked.

It is the theory of those who are seeking to bring about this condition that one side or the other will give in. One side or the other will give in—but not till it is exhausted. What about the meantime?—the period during which relative endurance will be tested?

THE FOREST FIRE EVIL.

The annual midsummer battle with forest fires is on. In a score or more newspaper sanctuaries, a telling fight is being waged against the fire fiend. Pen, pencil, paste-pot and scissors are all enlisted in the fray for forest preservation and the extinguishment of vagrant fires.

Yet the fires continue to devastate the stock ranges and the timbered tracts of the mountains. The camper, the sheep herder, the careless hunter and fisherman and the omnipresent tramp continue to ignite the woods and fields, as if the world was made to burn and summer to be celebrated with flaming hills and pastures.

However much we may admire the skill, courage and pertinacity with which it is conducted, we are reluctantly compelled to admit that the literary crusade against forest fires has only been a success from a literary point of view. It has not perceptibly stayed the annual holocaust.

It is apparent therefore that mental energy applied to ink and white paper cannot be depended upon as a preventive of forest conflagrations. The reason is that the effect is only persuasive. Persuasion is wasted on some people. There is a class of intelligence that can only be appealed to with a club. Any argument less forcible than a physical knock-down is powerless to carry conviction. It is a waste of time to tell some people that forest fires entail an annual loss of from \$25,000,000 to \$50,000,000. It is not their property that is burned. They do not have to pay the insurance on crops, buildings and fences destroyed as a consequence of their careless handling of fire. They do not care.

In spite of the continuous warnings of the press people go on getting buncoed and gold-bricked. The victims of bunco men and the purchasers of gold-bricks lose their own money. The fellow who sets the fields and woods afire hazards nothing, loses nothing, and is indifferent as to who else loses and what is lost. In this lies the real problem of preventing the periodical destruction of valuable property by forest fires. Any remedy, to be efficacious, must be preventive. It does not lie in extinguishing the flames after they are once set, but in preventing the ignition in the first place.

How is it to be done? Appeals to reason have been found to be in vain. Perhaps if the property owners of each neighborhood would organize protective leagues some good might be accomplished; though in the unsettled mountain districts such organizations can be of little avail. Stringent legislation may do something, but it is difficult to prove which fool dropped a lighted match or cigarette stump in the dry grass, and arson of this kind is so akin to accident as to hardly admit of legal distinction. But as difficult as the forest fire problem is, a solution should be found. The annual destruction of property cannot be permitted to go on forever. And certainly society should be able to devise some preventive to the costly drain.

Every country has its standard of civilization. In the United States we regard bull fights as barbarous; in Mexico, prize fights are considered barbarous and degrading.

The heavy registration indicates that a large vote will be polled in the San Francisco municipal primary. A registration of 70,000 means something when the only thing urging voters to qualify is the right to cast a ballot for the selection of delegates to conventions that will nominate municipal officers. Evidently the citizens of the metropolis are not going to permit their choice on general election day to be restricted to one of two or three evils. They are going to have something to say about who the nominees are to be and what kind of men shall nominate the candidates. In other words, the voters of San Francisco are realizing that the place to fight the battle of good government is in the primaries. Napoleon said the place to defend Paris was on the Rhine. The primary election is the line of defense for good government. It promises to be well manned.

When Manager Schwab went up against roulette at Monte Carlo, Banker Morgan decided then and there that he was afflicted with softening of the brain or he would not play against a game where the other fellow had a sure thing of winning. When a man leaves the inside to play on the outside he becomes a sucker in Mr. Morgan's estimation—or a fool.

ADVERTISING MEDIUM.

THE DAILY NEWSPAPER IS THE HIGHEST AND BEST CHANNEL.

The Lodi Herald is authority for the statement that the Stockton Business Men's Association has resolved to resist advertising by its members to legitimate newspaper channels; that San Jose and Oakland merchants have taken like action, and resolved to spend no more money in advertising in programs, charts, etc. It is a sad fact that a similar proposition is under consideration by the merchants of Sacramento. That restriction of advertising to the columns of newspapers of general circulation would be wise, is too obvious for debate. It is clear that the larger percentage of money spent in program, chart and similar advertising avenues is a dead loss.

The highest and best channels for reaching the public are and are reaching the thoughtful attention of readers are those represented by the newspaper. For the publicity it affords is not a matter of chance or hazard; it goes for the express purpose of being read, and by the direct invitation of the reader, into the market, the shop, the home, the office, the very heart of the consumer. It is, therefore, at once the most direct and the most profitable to the user of all agencies of advertising. The securing of the newspaper is the chief of all mediums of address by business to the consumer for economy, directness, effectiveness and the assurance of reaching all others most approved by business experience.—Sacramento Union.

MAYOR OLNEY PROTESTS.

HE WANTS THE LOCAL LINES ASSESSED BY THE CITY AND COUNTY.

Mayor Olney has directed a communication to the State Board of Equalization making a protest in the name of the city against the further assessment by the State board of the lines of railroad operated through this city and known as the "Seventh-street Local," the "Berkeley Local" and Webster-street Local.

In his letter Mayor Olney writes: "All these railroads are operated wholly within the county of Alameda and therefore should, under the construction and laws, be assessed for purposes of taxation by the local assessors."

"The city of Oakland respectfully and earnestly protests against any further assessments of the above named local roads by the State Board of Equalization, which board, under the constitution and the laws, are empowered and authorized to assess only such railroads as are operated in more than one county of this State."

"You are further respectfully informed that the Alameda County Assessor has this year assessed all of the above described local railroads, including their franchises and rolling stock, and that their assessment for this year's taxation purposes is already a portion of the Alameda county assessment."

"You are also notified that the former apportionments of railroad taxes to Alameda county and the city of Oakland by the State Board of Equalization were based on a much less number of miles of railway than were laid in this county and in this city and that because of this the Council of the city has directed its City Engineer to ascertain the number of miles of railway laid in this city and the Board of Public Works to report to your honorable body for your information the result of such findings."

Following is the actual description of the lines of railroad which, the Mayor says, should be assessed in part by the city of Oakland and in part by the county:

"The railroad known as the Seventh-street local, consisting of two main tracks and commencing at the western end of the Oakland Mole, in Alameda county, and running thence eastward to the city of Oakland, along the center line of Seventh street, Oakland, crossing the northern arm of the estuary of San Antonio to East Oakland and thence through East Oakland to Fruitvale station, in Alameda county. This railroad has heretofore been assessed by the State Board of Equalization as having but one main track and was assessed to the Central Pacific Railway Company."

"The railroad known as the Webster-street local, and consisting of a single track, with switches, and commencing at ships channel, in the bay of San Francisco, and running thence easterly along the narrow gauge mile to the highland in Alameda city, thence easterly along the southern shore line of Oakland harbor to a point directly opposite the foot of Harrison street, in the city of Oakland, thence northerly crossing said Oakland harbor, thence curving northwesterly across First street in the city of Oakland to a point in Webster street, thence northerly along the center of Webster street to a point one hundred feet north of Twelfth street, thence curving northwesterly across Thirteenth street through blocks Nos. 192 and 191 to a point in Fourteenth street, between Franklin street and Berkeley way, in the city of Oakland. This railroad is assessed to the South Pacific Coast Railway Company."

"The railroad operated, exclusively in Alameda county, known as the Berkeley branch road, consisting of two main tracks and commencing at a point near the Berryman tract, in the foot of Berkeley, running thence southerly and southwesterly through Berkeley, Oakland, Emeryville, and thence southerly along the Southern Pacific Railroad right of way, near the western shore line of the city of Oakland, to a point about opposite Thirteenth street, where the said Berkeley road joins the through two main tracks of the Southern Pacific Company. This railroad has heretofore been assessed by the State Board of Equalization as having been one mile track and no mileage within the limits of the city of Oakland south of the town of Emeryville."

W. S. Leake, who has been manager of the Call for the last six years, is about to sever his connection with that journal. It is understood that the resignation has been in the hands of John D. Spreckels, the owner of the paper, for some time. Mr. Leake, desiring to retire from journalism to engage in enterprises of his own.

Mr. Spreckels, when interviewed last night as to the change of management of his newspaper, said: "Mr. Leake has tendered his resignation a month or more ago, to go into effect the latter part of September or early in October, unless his personal affairs should make it necessary for him to retire earlier. Mr. Leake has some enterprises of his own in which he proposes to engage. He will continue as manager of the Call until such time as he carries his resignation into effect."

There are Different Ways of Making Money

HERE'S THE ONE ADOPTED BY A NEW YORK MANUFACTURER OF MUSLIN UNDERWEAR. HE SHIPPED GOODS WITHOUT ORDERS TO SEVERAL OF HIS CUSTOMERS, BORROWED MONEY ON THESE ACCOUNTS FROM HIS BANKER, AND THEN FAILED. THREE CASES OF GOODS CAME TO US IN THIS WAY, BUT AS WE WERE ALREADY OVERSTOCKED REJECTED THEM. NOW BANKERS WANT MONEY—NOT MUSLIN UNDERWEAR. RATHER THAN HAVE THESE GO BACK WHEN THE SEASON IS NEARING ITS END THEY MADE A PRICE TO US OF ABOUT SIXTY CENTS ON THE DOLLAR AND WE ACCEPTED.

THE LOT CONSISTS OF TWENTY STYLES OF PETTICOATS, TWO OF GOWNS AND ONE OF CHEMISES.

FRIDAY MORNING AT 8:30 THEY GO ON SALE AND THE PRICES WE HAVE PUT ON THEM WILL TEMPT YOU TO BUY WHETHER YOU NEED THE GARMENTS NOW OR NOT. HERE ARE SOME OF THE AGREEABLE DETAILS:

Muslin Petticoats

At 75c—Regular \$1.25 Petticoats; 18-inch flounce, 2 rows of 1-2 inch inserting, headed with group of fine tucks; lawn ruffle edged with 2-2 inch lace.

At 90c—Regular \$1.35 value; flounce with 2 rows of Torchon lace, with group of 3 fine tucks; deep lace edging.

At 95c—Regular \$1.50 value; deep flounce; 2 rows of Point de Paris inserting with five narrow tucks; wide lace edging.

At 1.25—Regular \$2.00 value; deep flounce headed with four fine tucks; 10-inch open work; embroidery ruffle—same style, with blind embroidery ruffle.

At 1.25—Regular \$2.00 Petticoats with two rows of lace inserting headed with five narrow tucks; 3-inch lace edging.

At 1.50—Regular \$2.50 Petticoats; flounce 2 feet deep with group of five tucks; 4 rows of inserting and wide lace edging.

At 1.95—This is a remarkable value. The ordinary selling price is \$3.00. It is made of high grade cambril with lawn inserting between two rows of 3-inch Cluny lace. Cluny lace edging, 5 inches wide; flounce headed with group of five narrow tucks.

Window "A"

will be the center of much interest tomorrow. It will contain an elaborate display of the Muslin Underwear to which this ad is devoted.

Chemise Gowns

There are but two lines of Chemise Gowns and they are made with low neck and elbow length sleeves.

At 1.50—Regular \$2.50 gown with Torchon lace yoke, relieved by three rows of baby ribbon beading; deep lace ruffle to yoke; lace-finished neck and sleeves.

At 1.50—Regular \$2.50 gown; yoke with three rows of lace insertion; ribbon beading; sleeves and neck finished with lace.

Skirt Chemise

The lot included only one line of Skirt Chemises, but it is an exceptionally good one.

At 75c—Skirt Chemise of the regular value of \$1.15, made of an excellent quality of nainsook; circular lace front beaded with three rows of fancy baby ribbon; sleeves and neck are finished with lace.

FUNERAL OF HENRY MYERS

THE LATE HENRY H. MYERS.

The funeral of Henry H. Myers, a pioneer resident of this city, who died at his residence on Sixteenth street Monday afternoon, was held today at 2 p. m. from the I. O. F. Hall under the auspices of the order of Odd Fellows, of which organization the deceased was a member.

Henry Myers settled in Oakland in the early fifties and enjoyed a large acquaintance throughout this county. He was the builder and owner of the Eureka Hotel at Seventh and Washington streets.

DOCTOR ORLOW'S LECTURE

ADDRESSES OAKLAND AUDIENCE
—"ATMOS" BRIMS OVER
WITH GOOD THOUGHTS.

Doctor O. N. Orlow, philanthropist, editor and lecturer, addressed the New Thought Society in Oakland last evening. Doctor Orlow is the founder of the Society of Human Endeavor in America, and the editor of that instructive magazine, *Atmos*, which is published from the doctor's magnificent Oriental home, 3440 Clay street, San Francisco.

He is so favorably impressed with Oakland that he thinks of making this city his future home, and conducting from here his public work, which extends throughout the United States. Last night he took for the subject of his address, "Thought and Color."

"The New Thought," he said, "is the philosophy of that great Oriental philosopher, Atmose, who lived over 5000 years ago. These thoughts are the rehabilitation of old truths clothed in the thoughts of advancement and civilization."

"Thought is reflective. Good thoughts produce health, and evil thoughts the reverse. In order to be healthy, man must think health."

"The greatest wealth of man is true thought and character. Man should have a purpose in living; and that purpose should be for good. Evil exists, but it is a negative force, which can be overcome by good will."

"Everything in life is a tool for the benefit of mankind. The result will be for the individual as well as the collective man, betterment of self and nearer to a state of perfection. The philosophy of Atmose teaches that no man is perfect."

COFFEE SEN' HER.

Back to the Country.

A young woman of Bradford, Vt., made her way to a good position in a big Boston store and gave it up because of sickness at home, but it all came out right at last and she is the story this day. "Two years ago I had to leave a position as bookkeeper in a Boston department store to go back home to take charge of the old place as mother's health seemed shattering, and what do you suppose proved to be the cause that forced me to return?"

"I found her very weak, unable to sit up all day and with a dizzy feeling if she tried to move about. She had been advised to stop coffee drinking but as she had used it from childhood it seemed as though nothing could take its place. I had settled down to stay at the farm when one day I got thinking over the situation and concluded to try an experiment. I got a package of Postum Coffee. It was not a cold right the next morning and we were all disappointed. That was because we tried to make it like coffee. Next morning I had Postum made according to directions and we were all delighted. In a few days you should have seen the change in mother. Since that time we have never drank coffee and now we all drink Postum twice a day and sometimes three times and think it superior to coffee."

"The change in mother's health since she quit coffee and took up Postum has been wonderful. She is once more able to take the work again, quite well in fact, with no more weakness and nervousness. I have no stomach, no more trouble of any kind. To cut a long story short she is now entirely well and I am going back to Boston in a few weeks, thanks to Postum."

EDGAR DE PUE SUED.

HE ASSISTED HIS SISTER IN HER DIVORCE CASE.

SAN FRANCISCO, July 23.—Edgar J. de Pue, who was a State Prison director some years ago, and who is the president of the Yolo Orchard Company, was brought into the Berkeley divorce case yesterday through the filing of a complaint against him by Attorney T. J. Crowley, who alleges that De Pue assisted him to act for Mrs. N. H. Rieky in the divorce proceedings and promised to pay his fee. Crowley asserts that De Pue owes him \$500 on that account and demands judgment for this sum. Crowley declined to speak about his suit, and professed to be shocked because publicity was given to it. After stating in the complaint that the services on Mrs. Rieky's behalf were rendered at De Pue's request, he says that he has received only \$50 from De Pue, and that he expended that amount at De Pue's instance and request. The suit of Mrs. Rieky against Dr. Addison W. Rieky for a divorce and large alimony was begun in Alameda county, but was transferred to Contra Costa county at Dr. Rieky's request, as he was a resident of Port Costa. In her complaint Mrs. Rieky accused her husband of undue fondness for another woman and of failing to provide for her, while the doctor in his cross-examination alleged that she had shown more affection for other men than for himself. They first resided at Williams, Contra Costa county, and removed in 1891 to Port Costa. Dr. Rieky asserted that the reason why he changed his residence was that his wife and a young farmer at Williams became infatuated with each other, and he considered it wise to separate them. At Port Costa he failed to regain his wife's affections, and in 1896 he left him and went to Oakland. De Pue's interest in Mrs. Rieky was not disclosed in the divorce proceedings. For years his business has called him to Port Costa and he met her there. Mr. De Pue's defense to the allegation is that the fee charged in the case is excessive and for this reason he is contesting the claim of the lawyer. Mrs. Rieky, who is mentioned in the case, is Mr. De Pue's sister and this accounts for his interest in the matter.

OFFICER JACOBUS MUST RESIGN.

In the suit of William Bloom against his wife, Flora Bloom, for a divorce and the custody of their child, Bloom alleges that Policeman Percy G. Jacobus has alienated his wife's affections from him and as a result Jacobus will be compelled to resign from the police force. The Police Commission has instructed Chief of Police Hodgkins that Jacobus' resignation will be favorably acted upon by them. Several informal meetings of the Commissioners have been held within the last few days, and after considerable discussion it was deemed best to give Policeman Jacobus an opportunity to resign in preference to being retired by them. Jacobus has, for the past year, acted as court officer for Judge Smith. Owing to his connection with the Bloom divorce case, he is living apart from his wife.

On the first day of May, this year, William Bloom, asked for a separation from his wife on the ground of cruelty and died with the Board of Police Commissioners the accusation against Jacobus of having alienated his wife's affections. On May 8, Bloom was given an interlocutory decree. His wife made no contest. The Commissioners, after giving Jacobus an informal hearing, told Chief Hodgkins that it would be better if Jacobus were off the force. The Commissioners met yesterday afternoon for further consideration of the charges against Jacobus, and decided that his resignation was expected.

PRESIDENT RIDES IN STORM.

ROOSEVELT AND HIS SON RIDE THIRTY MILES ON HORSEBACK.

OYSTER BAY, L. I., July 23.—Shortly after 2 o'clock this morning, President Roosevelt, accompanied by his eldest son, Theodore, started from Sagamore Hill on a horseback ride to Sayville, L. I. The President goes to Sayville to visit his uncle, Robert Roosevelt.

Mrs. Roosevelt was deterred from attempting the long ride, about thirty miles, by the very unpropitious weather.

The President and son were unaccompanied. Two Secret Service officers left Oyster Bay last night for Sayville by train.

The President will spend the day and night with his uncle, leaving for Sagamore Hill on his return ride early tomorrow morning.

LEAVES SAGAMORE.

SAYVILLE, L. I., July 23.—The President left Sagamore Hill under a threatening thunderstorm. During the entire night it had been raining heavily, the downpour being accompanied by a tremendous electrical display. Undeterred by the raging elements, President Roosevelt and his son prepared for their journey. The storm had abated somewhat by 2 o'clock and soon after they started subsided entirely. The President and his son were accompanied on their ride by two nephews of President Roosevelt. For more than two hours the little cavalcade rode through a night that was inky in its blackness, but shortly after 4 o'clock the dawn broke and in a little while the sun was shining gloriously. President Roosevelt, on his favorite riding horse, set the pace. Theodore, riding the horse Wyoming, presented to the President by the citizens of Douglas, Wyo. The party arrived here a few minutes before 8 o'clock this morning, riding directly to the home of the President's uncle, Robert Roosevelt, about a mile from this little town.

The President arrived at too early an hour to attract much attention. Since he came he has spent the time about the grounds of his uncle's estate. His visit is of a purely social character and it is understood it will not be made the occasion of the least public demonstration.

SUES FOR A DIVORCE.

Mrs. Hannah G. Robie filed suit for divorce yesterday from Thomas Robie. The couple were married in 1877. For three years Mrs. Robie has neither seen nor heard from her husband, and she does not know whether he is dead or alive. She is suing for a divorce to be on the safe side.

THE HELLER represents an intrinsic Piano value, making it acceptable to any home wanting an attractive and durable Piano for comparatively little money.

The makers of THE HELLER have shown much taste in the case work and the inside—such as plate (the iron support) and action (the works), is made by well-known Eastern piano specialists, and is precisely the same as found in other Pianos selling for much more money.

A five-minute investigation will convince you on these points. A PROPOSITION—WE WILL SELL THE FIRST SEVENTY-FIVE HELLER PIANOS AT NEARLY HALF PRICE; IN OTHER WORDS, WE WILL SELL THEM AT WHOLESALE PRICES TO INTRODUCE THEM. WE WANT HOME REFLECTIONS FOR THIS PIANO.

DIED SUDDENLY AT HIS HOUSE.

LIVERMORE, July 23.—Benjamin Turrado, aged 70 years, a prosperous rancher living seven miles north of Livermore, died suddenly yesterday, presumably of heart failure. After eating his luncheon he went to his room to take his customary nap. He stayed in his room so long that his wife became alarmed and went to see what was the matter. When she reached there, she found the old man lying dead on his bed. Corner Curry of Contra Costa county has taken charge.

BERKELEY AND THE STATE UNIVERSITY

WHOLE STATE EMBRACED IN GIGANTIC PLAN.

Scheme is Launched for Irrigating and Reclaiming Land From Sierras to Coast.

BERKELEY, July 23.—A gigantic scheme of irrigation and reclamation, which embraces in its scope the whole of California, has just been launched by the irrigation department of the University of California. The details of the plan are not as yet completed, and until they have been completed, and revised, those in charge of the work will say nothing in regard to it further than to admit that they are now at work drafting the first outline of the proposed plan. The significance of the scheme will be seen when it is noted that the intention is to adopt a harmonious plan for irrigation and reclamation throughout the whole State. In this way it is thought that the cost will be greatly reduced, while its effectiveness will be increased.

As far as can be learned it is expected that the different counties and localities will bear the expense of the work, assisted by an appropriation which, it is thought, the State can be persuaded to give.

The work of reclamation will be first started in the alkali lands of the lower San Joaquin, and in the tule region around Sacramento. Suggestions will be made and plans outlined by means of which the residents of the more arid section can secure a sufficient water supply through irrigation to assure crops.

James M. Wilson, assistant professor of irrigation, and E. Wood Maud, professor of the institutions and practices of irrigation, are working out the scheme. More complete details will be announced at a later date.

The horticultural department is working in conjunction with Professors Mead and Wilson in attempting to secure data that will be of assistance as far as fruit irrigation is concerned. The aid of orchardists, canners and fruit growers will be enlisted and they will be asked not only to furnish information but to conduct actual experiments. The canners are expected to tell the relative proportions of irrigated and non-irrigated fruit which meets the standard of the markets.

PRETTIEST CHILD AT FRUITVALE.

FRUITVALE, July 23.—The three-year-old daughter of Mr. and Mrs. Charles Jeffers, of Putnam street and Merrill avenue, is considered the prettiest child in Fruitvale. She has posed for many juvenile photographs, and is the flower of Fruitvale's many handsome little ones.

VALUABLE GUIDE TO FRESHMEN.

BLUE BOOK OF Y. M. C. A. MAKES ITS ANNUAL APPEARANCE.

BERKELEY, July 23.—The first numbers of the annual Blue Book, published by the Young Men's Christian Association, have made their appearance. In all 1800 copies will be published and will be distributed free of charge to incoming students. The book is full of advice and information for freshmen. In its table of contents are to be found pages devoted to university organization, university journals, athletics, a list of the important college days and for what they stand, blank pages for memoranda, and addresses and pages for cash accounts. The freshmen are warned to beware of the wiles of upper classes.

The book comprises a description and map of the campus and of Berkeley, a list of the reference libraries around the bay, an enumeration of the different fraternities and house clubs, together with their street and telephone addresses, a directory of churches, of trains, and of mails. In short, it is a complete guide to the university and its immediate vicinity. These "blue books," as they are called, are eagerly sought after by the freshmen, as the information it contains forms a means of protection against the mild hazing of the upper classes.

President Wheeler has contributed the following article to the book, which he dedicates especially to freshmen:

"I beg to dedicate to the members of the freshmen class a few scraps from the note book of my college experience. I think I have noticed that few men who force themselves into public attention, in the early months of their college course, prove to wear well in the college estimation. Do not push. The steady pressure of honest work is better adapted to the four years' test. Do not try to be a 'prominent man' for the first year. Prominence will take care of itself in the end, unerring judgment of student opinion.

"Forget as soon as possible the grandeur of your recent estate as seniors in the high school, and settle down to be plain freshmen. Fall into line; recognize the leadership in student affairs of the senior class; bide your time; you will be seniors some day. If all goes well. Though my experience recommends to each of you quietness, it dissuades from isolation and selfish individualism. Become a part of the organized life of the university. UNIVERSITY WILL PREPARE EXHIBIT FOR ST. LOUIS.

Typical Plants of California to Be Collected From State Experiment Stations.

BERKELEY, July 23.—The Agricultural Department of the State University has been asked to assist in preparing the California exhibit at the St. Louis exposition. The portion of the work which has been turned over more particularly to the university authorities is the collection of native grasses, of adapted forage plants, of vegetables, grain and straw.

Those who will take charge of collecting the exhibit state that California's exhibit along these lines should lead the world as there is a greater variety here from which to select. Each of the experiment stations will be called upon to assist the university in preparing and sending the exhibit which will be sent last.

According to a recently passed law, any State institution can be made to loan its property for purposes of exhibition.

The work of preparing California's exhibit will start at once.

President Wheeler has contributed the following article to the book, which he dedicates especially to freshmen:

HAYWARDS, SAN LEANDRO, EMERYVILLE, FRUITVALE, GOLDEN GATE

REAL ESTATE IS BOOMING.

HAYWARDS DEALERS REPORT NUMEROUS SALES OF REALTY.

HAYWARDS, July 23.—Real estate in this vicinity is at present on the boom, a large number of good sales being reported weekly.

Peter Wilbert reports the following sales: Herick place in Castro Valley next week; the Mills house on the Meek tract to S. P. Harger of Colorado. Agent Promise this week sold to H. F. Nobes to H. W. and W. E. Meek a lot 62-270, on the Clark tract for \$750. The Sinkwitz place on a street has been sold to P. R. Norton of Alameda, who has already moved into his new home.

The J. E. McDermid place, back of the Catholic church, has been sold to A. George of Berkeley. S. D. Warren & Son made the sale.

The Recorder's office shows the following deeds recorded:

T. L. S. F. J. and N. M. Russell to H. Meave, 10 acres bet. Hayward and Russ station.

P. S. and M. J. Merle to John Treadwell, 12 acres with rt. of way, Eden pt., \$10.

John and F. J. Treadwell to Oakland Realty Co., 12 acres as in deed, \$10.

J. F. and Mariette Herick to H. Hartley, 11.70 acres Castro Valley, \$10.

Fraser and John Hagerty to Cornelius Brisson, lot 9, block 19, Hayward Park Hd Union, \$10.

DEATH OF PORTUGUESE CHILD.

K. De Brill Alarshar, age 2 years, died last Saturday at the home of its parents. The infant was buried on Sunday in the Catholic cemetery.

BOUND OATH.

Albert Foust, who is charged with stealing J. D. Armstrong's bicycle, was arraigned before Justice Charles Prowse yesterday morning, and bound over to the Superior Court for trial in default of \$500 bonds, he sent to jail. The fellow seems somewhat out of his mind, as he does not take the slightest interest in the matter.

INSTALLED OFFICERS.

Eden Parlor of Native Sons installed officers in their new hall last evening. The members present enjoyed a pleasant social session, after the installation.

The new officers of the society are: Past president, George Medson; president, Jacob Harden Jr.; first vice-president, William Zamovsky; second vice-president, Adam May; third vice-president, George Melinber; marshal, F. Brockman; recording secretary, W. T. Knightly; financial secretary, Dr. H. Powell; trustee, Oscar Walpert.

MARRIED IN SAN FRANCISCO.

Miss Nellie Arnold and Frank J. Hoffer, both of this city were married yesterday in San Francisco. The

LADIES' HOME MISSIONARY SOCIETY IS ENTERTAINED AT PLEASANTON.

PLEASANTON, July 23.—The mission society was very pleasantly entertained on Tuesday afternoon by Mrs. Robert Ellis at her home on St. Mary's street. A large number of ladies were present and enjoyed the program.

The topic for the afternoon was, "Annual Meeting Reports"; reading of the scripture by Mrs. Ellis, singing opening hymn, piano solo, "Rajah March," graphophone; extracts from President's address, Mrs. R. Ellis; notes from the field, Mexicans and Alaskans, Mrs. C. A. Bruce; "Indians," Mrs. Ross Peach; quartette, "Waiting and Waiting," graphophone; "Mormons and Mountaineers," Mrs. William Graham; extracts from Secretary's report, Mrs. Arthur Ralph; summary of treasurer's report, Mrs. R. Ellis; cornet solo, "The Palms," graphophone; "The Freedman," Miss Mabel Gibson; "Steadfastness," Miss Lila H. Hays.

After the program pineapple ice and cake were served by the hostess.

NATIVE DAUGHTERS INSTALL.

Verona Parlor, N. D. G. W., held an installation of officers on Tuesday evening at Odd Fellows' Hall. The Deputy Grand President, Mrs. J. D. Smalley, presided. The new officers installed by Mrs. Cassidy, Mrs. V. Strobel, Miss L. Walpert, Miss L. Wendick and Miss M. Wendick all of Haywards, a very instructive as well as a pleasant evening was spent. After the work of installing was finished, all adjourned to the banquet hall where a delicious supper was served. The tables looked very beautiful with their decorations of choice cut flowers and ferns, and with the fair daughters of Verona parlor in their pretty evening gowns. The picture was one, not soon to be forgotten.

Ceremony was a very quiet one, being witnessed only by the relatives and a few intimate friends of the contracting parties. The happy couple left on the evening train to spend a six weeks' honeymoon in the northern part of the State. On their return they will reside in Haywards.

The bride formerly taught in the Haywards grammar school, and is well known in social circles. The groom formerly conducted a large jewelry store in San Francisco, but a few years ago retired from active business and took up his residence in Haywards.

PERSONAL.

Mr. and Mrs. Arthur Allen and daughter have gone on a two weeks' vacation to Santa Cruz on account of Mr. Allen's health.

Miss Ann May has been filling Miss Ann Gray's place in the bank while the latter is enjoying her vacation in Santa Cruz.

SAN LEANDRO TRUSTEES BELIEVE ALL SHOULD PAY TAXES.

SAN LEANDRO, July 23.—The proposition of revising the license ordinances with a view to raising the tax on certain branches of business and placing a license on others which have hitherto been exempt, is just now before the Finance Committee and the town attorney. For some time the trustees have been of the opinion that a number of proprietors who could well afford to pay a license tax, have not been compelled to do so, while other merchants and small dealers are taxed for doing business.

It is proposed to license banks, the lighting company and all other big corporations, which are at present allowed to exist without license. The license fee on itinerant shows and amusement companies will likely be raised. The committee has not decided yet whether the liquor license will be raised. At present it is \$50 a year.

IN MEMORY OF THE POPE.

Solemn high mass was celebrated yesterday morning at 9 o'clock at St. Leander's Catholic church in memory of the late Pontiff, Rev. Father O'Mahoney. The church was crowded with sympathetic mourners.

EMERYVILLE ON VERGE OF BOOM—FIRST ENGINE ON NEW TRACK.

EMERYVILLE, July 23.—A good many people are looking about this town for houses to live in, but the demand is in excess of the supply. A party was making inquiry yesterday for a house suitable for a hotel, and said she would move right in if she could be accommodated. She could not. Residents are wondering why people with money do not erect buildings in this coming point of importance and help along the boom that is trying to start itself.

THE LOCOMOTIVE TOOTS.

Yesterday engine 10 of the Santa Fe's motive power was binding freight and construction cars at and on the new track from the subway east. Track is laid up to the creek, and ties are being carted out and strung beyond.

VISITING BROTHER.

Miss A. H. Farren from Boise City, is visiting her brother, H. M. Farren of the S. P. Co. Miss Farren has just graduated from the Boise High School, and will make her future home in Benicia.

THE CREW.

Engineer E. R. Ewin and fireman W. W. Hubbard were in charge of the first Santa Fe engine to run on the new line, brought over from Bay Point. They report the track in splendid condition for a new one.

AT POWER HOUSE.

The big tip section was being moved into the power house yesterday. Both the high and low pressure cylinders are screwed down into position, and the whole thing begins to have a very business like look.

NEW KIND OF TROLLEY.

One of the cars that is to run down to the new pier was being tested yesterday, and it can make a good many "snorts" an hour when given fair chance. It carries a new kind of trolley, so rigged that it does not have to be turned around when it is desired to run in the opposite direction.

A MONTH YET.

It would take another month to get the subway in condition for regular running of cars. The retaining wall is well along, but no by any means completed. Another bottom of cement is to be put in, in which the ties will be laid, and a lot of little things will have to be attended to.

PAY DAY.

Yesterday was pay day at the cannery, where there is a large force of fruit-handlers at work. The fruit received is of good quality and arrives in elegant condition.

FRUITVALE WHEELMEN ENTERED IN ONE HUNDRED MILE RELAY RACE.

FRUITVALE, July 23.—Cecil Nelson and Axel Vallin, two well known young Fruitvale bicyclists, are entered in the annual trophy race to be held next Sunday. The boys will be on the team of the Oakland wheelmen. The race is a hundred mile relay, around the bay, from San Francisco to Alameda, via San Jose. The relays are somewhat shorter than is customary in such events, being only of five miles each.

Ellis and Nelson formerly were employed at the Fruitvale postoffice as mail carriers.

KING'S DAUGHTERS MET.

The King's Daughters of Upper Fruitvale met at the home of Mrs. A. Finkenstedt on Paralta and Nicol avenues Tuesday afternoon. Light refreshments were served. A pleasant time was enjoyed by the present.

PRESBYTERIAN SOCIAL.

The members of the Presbyterian church in Upper Fruitvale are planning to give a musical social some time in the near future. D. Laurence will have charge of the program.

VACATION NEARLY OVER.

The Dewey School on Washington street will open for the fall term on Monday, August 3. The lower Fruitvale school on Fruitvale avenue will commence a week later, on August 10.

CRUSHED HIS TOE.

The street sprinkling car of Fruitvale Sanitary District No. 2, ran over and crushed the great toe of a small boy near East Oakland yesterday.

LAKE CATHOLIC FAIR.

The ladies of St. Anthony's Catholic church are making preparations to hold a fair the middle of next month.

NEW BANK.

The new Syndicate bank opened its doors for business Tuesday, and quite a gratifying sum was received as deposits.

MAIL CARS ARE FOR THE GOVERNMENT EXCLUSIVELY—ELMHURST NOTES.

ELMHURST, July 23.—The men in the local paint and repair shops of the Oakland Transit Company are being kept busy just now. A number of cars of the Alameda line, besides those of the Haywards division, are being renovated and repainted. The new fare registers are being installed in the cars of the Haywards division as fast as possible. The mail-car, which was turned out Monday, is a credit to the local force. The new springs have been changed it from the hardest to one of the softest running cars on the line.

Harry Caldwell with his force of painters has returned from the Santa Fe pier where they were employed painting poles.

It is rumored that before long, passengers will be prohibited from riding on the mail car. On other electric lines, the public is forbidden from riding on the mail car, as it is exclusively for the government service. At present not many are carried on the local car, because it stops only at the post-offices along the line, and in Oakland runs only as far as Webster street. The car is painted red, and the conductor is obliged to climb around the outside to go from one end to the other to collect fares. A new register was not installed in the car when it was in the shop, so it is believed that when the other cars commence to use them, the mail car will stop carrying passengers.

SCHOOL OPENS MONDAY.

The local grammar school on Jones avenue and the Melrose school will open Monday for the fall term.

NO MEETING.

The mass meeting scheduled for last evening in Red Men's Hall, did not take place. It was intended to have a gathering of those who object to the plan of the school trustees to tax the district \$5,500 to build an addition to the school house. The "dissenters" were in favor of bonding the district and paying the money in installments. Evidently the proposition has fallen through, as the meeting did not materialize.

PERSONAL.

I. N. Batt of East Fourteenth street, was in San Francisco yesterday on business.

Mrs. J. E. Johnson, of East Fourteenth street, visited friends in Fruitvale yesterday.

GOLDEN GATE FAMILIES PLAN WAGON TOUR OF THE STATE.

GOLDEN GATE, July 23.—A Steinman is still hoping for the capture of the boys or men who burglarized his store Sunday afternoon, although he thinks it is hoping against hope.

WILL GO BY A WAGON.

D. W. Messer is putting a brand new sheet on his spring wagon and otherwise fixing up for a month's camping tour through Mendocino county. He will take his family and be accompanied by Harry Kennor and family.

FROM MARTINEZ.

Mr. Samuel Smith, a former resident here, has come down from Martinez to visit with his son-in-law, D. W. Messer.

TOURING THE STATE.

Professor A. F. Finkenstedt, of 1059 Sixty-second street, has been traveling through the State for a week or two. He returned home yesterday.

CHANGED HORSES.

The engine company here has just received a new horse for use on the hose cart. The old one goes to East Oakland.

AT SAN JOSE.

Harry Klinkner went down to San Jose for a ten days' good time and had it. He is now at home.

LACKING.

There appears to be a dearth of rooms hereabouts for would-be residents, and quite a number of searchers for accommodations have had to go elsewhere.

VISITED GRANDMOTHER.

Alfred Lacoste, son of John Lacoste has been visiting his grandmother in San Francisco. His return is noted.

BACK YESTERDAY.

Master David Arner and Miss Pauline Young have returned from Eloy, Sonoma county, where they have been having a nice visit with Master David's aunt.

IMPROVING.

A new sidewalk is being laid in front of the Free Reading Room, and also in front of the building opposite Fifty-ninth street, owned by Mr. Hayes.

Valuable Time Saved.

Slight injuries often disable a man and cause several days loss of time and when blood poison develops, sometimes result in the loss of a hand or limb. Chamberlain's Pain Balm is an anti-septic ointment. When applied to cuts, bruises and burns it causes them to heal quickly and without inflammation, and prevents any gathering of blood poison. For sale by Osgood Bros., Seventh street and Broadway.

HE LEFT NOTHING BUT BOOKS.

FATHER GLEASON'S COLLECTION
AS NUCLEUS OF SAINT ANTHONY'S LIBRARY.

Rev. Father Gleason, late pastor of St. Anthony's Church in East Oakland, left no will. He did leave, however, a valuable library and this may eventually become the property of the parish for which he labored so long and to which he gave so much of his time and all the money which came into his possession.

At the present time, the books forming this library are boxed up and are supposed to be awaiting final disposition at the hands of the relatives of the reported priest.

The subject was touched upon yesterday in a conversation between Rev. P. C. York, Father Gleason's successor in the rectory of St. Anthony when Father York said:

"Father Gleason left a very valuable library but it is not now accessible. The books are all boxed up. They would make a fine parish library."

The reporter asked if Father Gleason had not left a will.

"No," replied the priest, "he had nothing to leave. Besides, his relatives are in good circumstances; the library of Father Gleason under the circumstances might be considered the library of the new pastor, at which Father York smiled and then said:

"Oh, I have all the books I need. If I had any more, I would have to enlarge the house to get them in. Father Gleason's books would form the nucleus of a good parish library."

WOMEN ISSUE NEWSPAPER.

NEW YORK, July 23.—Edited by women, the first issue of a one-cent morning newspaper, devoted to series of and for women, will be a named after the streets of New York, November 20. Great secrecy is being maintained as to the promoters of the newspaper. Not even its name has been given out, but it is declared the paper will be an eight-page affair, to be issued daily except Sunday and will contain all the news, besides a magazine department devoted to matters of feminine interest. To avoid being "scooped," the women propose to go to press a couple of hours later than their contemporaries.

THE L. P. DEGEN BELTING CO.

A HOME INDUSTRY IN EVERY SENSE OF THAT TERM.

In mentioning the various industries which supplied the Pacific Steel Wire Company with machinery, the name of the L. P. Degen Belting Company was inadvertently spelled incorrectly. The L. P. Degen Belting Company, doing business at 105 Mission street, San Francisco, is the largest employer of men in the belting line in California. It conducts a "home industry" in the true sense of the term. The leather it tanned in California from green hides slaughtered in California, which is cut into belts of all widths at the L. P. Degen Belting Company's works, by California mechanics. Wide belting is a specialty made by this company, so that it invariably gives satisfaction. This holds equally true as regards the narrower widths.

RAILROAD COMPANY GIVES NOTICE TO ALAMEDA.

Will Stop Work on the Mole Until the Franchise Dispute is Adjusted.

According to the official announcement, the Southern Pacific Company will discontinue the work of reconstructing the pier and depot at the Alameda mole until such time as definite action has been taken by the City Trustees upon the two applications for fifty-year franchises filed by the corporation for its local roads.

Since the citizens of Alameda have by petition declared themselves in favor of granting the Southern Pacific franchises for five years, instead of the fifty-year privileges, the company seeks, the management is somewhat disturbed over the situation. It has decided to move slowly in negotiations and proposed improvements in that city.

Some of the workmen employed at the pier and depot site were laid off indefinitely yesterday morning without being given any reason for their discharge. There is much to be done before a pier and depot to replace those destroyed by fire nearly a year ago are ready for use. Thus far only the preliminary work of clearing away the debris, pulling up damaged piles and framing some of the lumber to be utilized in the structure has been done.

B. A. Worthington, of San Francisco, division superintendent of the road, said in relation to the matter:

"It is true we contemplate stopping all work on the proposed new pier at the Alameda mole. The Southern Pacific Company does not feel justified in going ahead with its plans on the narrow gauge road and incurring the great expense entailed in their completion, unless it is assured of a fifty-year franchise. So far the City Trustees of Alameda have not acted on our petition for a franchise and until they do, nothing further will be done. The completion of the pier and the standardizing of the track to Santa Clara."

"Altogether the improvements which the company proposes will cost in the neighborhood of \$1,000,000, of which amount will be expended in and around Alameda. If the attitude of the City

WILL EDUCATE FILIPINOS

CHARLES A. DINNEEN.

On the steamer China, which sailed for the Philippines a few days ago, was a company of young educators, who had been specially selected as instructors to serve among the Filipinos. Among them were Charles A. Dinneen and J. A. Garvin. Mr. Dinneen is a young man, who is specially qualified for the position, which has been conferred on him. He is an Oakland boy. Here he received his early education, and, while acquiring it, was one of the many bright boys, who started life as carriers of THE TRIBUNE. Later, he graduated from St. Ignace College and still later from Santa Clara College. A New Orleans, Mr. Dinneen underwent a post-graduate course and among the professors he met there was Mr. Garvin, who subsequently taught at St. Mary's College in this city, and who was among those who accompanied him to the Orient.

Mr. Dinneen is the son of Mr. and Mrs. M. Dinneen. His father is the well-known marble man and sculptor, who has been in business in this city for more than 25 years. Like his parents, Mr. Dinneen has artistic temperament and taste, and will undoubtedly leave the impress of his talent upon the new members of the republic with whom he comes in contact.

WILL TELEGRAPH AVENUE BE IMPROVED?

NOW IS THE TIME FOR THE CITIZENS TO TAKE ACTION.

From Fifteenth street to a short distance north of Temescal creek Telegraph avenue is in a shocking state of disrepair. Many years ago it was coated with bitumen as far as Thirty-fourth street, but the potholes, poor and thin to begin with, has worn into a multitude of ragged holes and risen into bumps through the action of the sun.

In consequence it has become dangerous to drive over the avenue at a rapid pace with light vehicles. Breakages and other accidents are of frequent occurrence.

When President Roosevelt visited Oakland, the avenue was in such a state that it was decided to bring him in from Berkeley on a street car rather than submit him to the indignity of a drive in a carriage over a thoroughfare made up of holes and hillocks.

The Berkeley end of Telegraph avenue presents a striking contrast to the Oakland section. From the block north of Temescal creek to the University gates the avenue has been placed in splendid condition. It has been graded, curbed and macadamized with a thorough and proper plan in all respects a fine driveway.

The broad roadway is smooth and hard, and presents an inviting prospect.

Now the cost of improving Telegraph avenue is no greater in Oakland than it is in Berkeley. Indeed, the cost for the Oakland end would be less, for a good deal of the work and necessary on the Berkeley end has already been done on the Oakland end. The street is curved for two-thirds of the length to be improved.

In Berkeley, and for a short distance inside the Oakland city limits, the avenue has been improved at the expense of owners of abutting property. Yet that property is nothing like so valuable as the property along the Oakland section. The travel over the Oakland end is five or six times as great as the travel over the Berkeley end.

Yet the Berkeley end of the avenue is a handsomely improved highway, while the Oakland section would shame a mountain village.

There is a general impression that a part of Telegraph avenue, in Oakland, is an accepted street. That is not the case. No part of Telegraph avenue has ever been accepted by the city. The bitumen pavement was laid by the property owners and was not in accordance with the specifications of the City Engineer nor under the direction of the Superintendent of Streets. Nevertheless it was a good pavement for two or three years, but it was laid. Its present extreme state of disrepair is largely due to neglect. Not being an accepted street, the city authorities have refused to repair the breaks in the bitumen until nothing is left of the pavement but a mass of breaks. It is a series of holes held together by tatters.

The city refuses to improve the avenue, contending it is the legal duty of the property-owners to make the improvement. Besides, the city has no money with which to do the work.

The property-owners contend that the city should defray the cost, or at least pay for the bitumen. But the bitumen was not laid according to city specifications and only covered two-thirds the length of the avenue. The remaining one-third, from Thirty-fourth street to Idora Park, has never been graded, curbed or macadamized and is in a shocking state of disrepair.

The property-owners along the avenue have agreed to pay part of the cost of the work if the city will pay the other part. The circumstances of this are entirely just arrangement. But the money the city is to expend must be raised by a bond issue. How long are we to wait for it? A bond issue for improvements may be voted down or it may contain no provision for improving the avenue.

What then?

Are we to continue to wait? Telegraph avenue should be improved at once. In its present condition it is a shame to everybody concerned, including both the property-owners and the city authorities. There is a manifest shirking of public and private duty, an evident lack of public spirit, and an exposure of ingraving civic enterprise.

If the property-owners along the avenue would get together in the right spirit and go to work with vim and vigor, they would solve the problem in three months. They could arrange a public sentiment to whatever extent the treasury will permit, and bring the mossbacks into line.

Now is the time to move, for the tax is soon due, and if any help is to be obtained from the city other than the problematical hope of a bond issue, the property-owners had better be getting moving and devising a plan of action.

They are sleeping on their own interests by neglecting the avenue. In the long run the greatest central artery is becoming more impassable, more of a disgrace to Oakland.

ALL GRAIN MEN INTERESTED

THE HORST SUIT ATTRACTING ATTENTION THROUGHOUT THE STATE.

SAN FRANCISCO, July 23.—The suit brought by E. C. Horst against the John L. Howard Company is exciting widespread interest all over the State. It deeply concerns grain growers, grain brokers and warehousemen. By attacking the legality of an established commercial custom, Horst threatens to cause a readjustment of the warehouse business.

In the suit the John L. Howard Company is in effect representing the grain warehouse business as a whole.

In addition to disputing the legitimacy of the custom of making a small deduction in weight to cover losses from evaporation, leakage and other causes, Horst charges the Howard Company with making incorrect returns of the deductions and of selling the overplus at a price below the market price of the barley stored, but these are considered as minor matters compared to the challenge of what is termed the "shortage" rule.

An added interest to the suit is given by the fact that John L. Howard is a shining mark in the commercial world. He stands high and his methods have been looked upon by the grain men in business circles his simple statement is accepted without question. Therefore Horst, who has a record as a long distance hiker, has selected a man of high repute to represent him in the suit. It will be exceedingly difficult to make the San Francisco business public believe John L. Howard made false returns to his customers of weights and prices.

In a newspaper interview E. C. Horst, the plaintiff, makes this statement:

"During last July, August and September we sent about 30,000 sacks of barley to the warehouse. The barley was cleaned at the warehouse and afterward sold by us. Last December the warehouse closed the transaction with the warehouse. We then found that, according to the returns of the warehouse, the weight shipped out was less than that which was shipped in from the farms."

"After the action was brought the Howard Company offered to make a settlement paying us \$1,000, which was supposed to cover two pounds of bleeding on every 'draft' and to include the value of the sweepings, which they said that they sold to our credit. They had sold Chevalier barley for \$1.20 a hundredweight, while that superior quality of barley was bringing \$1.75 last year. When the amount would not come near meeting the shortage in the barley."

"My information is that it is the custom of some warehouses to weigh the grain short when it comes in, thereby defrauding both the farmers and the railroad company, which accepts these weights. When the grain is shipped out the farmer is paid for the correct weight at the time the wheat was delivered at the warehouse. As barley increases in weight, often as much as six pounds to the sack, at tide-water and during the rainy season, over its weight during the heated and dry period when it is shipped to the warehouse, the warehouseman will bleed the merchant storing wheat."

"Our estimate, based on careful inquiry and extensive correspondence, is that our barley was bled to the extent of 3.5 pounds per sack. I know nothing of the custom of bleeding barley at tide-water, but it is a gross fraud and if it exists I wish to say that it is a poor business and that we are not a party to any such agreement."

Mr. Howard says the charge of returning incorrect weights is a gross fabrication, as will be demonstrated on trial. He characterizes the allegation that

LARGE HOUSES FOR EDWARDS DAVIS.

Edwards Davis, in "The Unmasking" in which the Mordant-Humphrey Company is appearing at the Macdonald this week, continues to cause increasing comment, and the audience remain the largest of the stock company's engagement. It is complimentary to both the player and the play that the opening should have been so successful.

The play itself, though essentially of such a nature as to occasion comment and difference of opinion, is not of offensive. There is not an improper suggestion in the play, and it appears no glancing at the stage scene from "Sapho," or the bird-room scene from "Du Barry." If "The Unmasking" is, as "Camille" and "Faust," the language of the play is elegant, terse and rhythmic, and the climax of the third act is pretentiously tragic. On each of the several performances this week, the unmasking scene has called forth from the audience a loud and repeated applause. Thus far he has only bowed his thanks. In the five years' absence of Mr. Davis from this city, his association with a leading man with eminent stars is evident. He has the easy manner of the new school. His lights and shades are beautifully blended, and his voice is splendidly modulated. The audience show a marked increase of interest, and an admiration for this accomplished actor.

Mr. Davis closes his special engagement with the Mordant-Humphrey Company next Sunday night, it being his stated intention to return directly after that date to New York.

REVOLUTIONISTS ARE ACTIVE.

CONSTANTINOPLE, July 23.—The increasing activity of the revolutionists in Macedonia and the difficulties encountered by the Turkish troops are producing an unpleasant effect in official quarters, where it is believed the existing situation will lead to fresh demands upon the powers, including the establishment of an efficacious European control. Even the Austrians and Bulgarians admit that the reform scheme is inadequate.

BODY OF MISS VEITCH.

The body of Miss Kate Veitch, who was killed a few days ago in a trolley accident at Lake Tahoe, has been brought to Oakland for burial. The date for the funeral has not as yet been set, as the parents of Miss Veitch were both injured in the same accident and have not sufficiently recovered to attend.

A SERIOUS KNIFE ACCOMPANIED BY WOUND SOLDIERS.

NOTORIOUS CHARACTER WOUNDED BY MAN HE WAS PERSECUTING.

"Fatty" Viers, a notorious character about town, was taken to the Receiving Hospital this morning with a dangerous knife wound under his left arm. After a night spent in drinking he got up in the morning in a state of intoxication and wrecked his own home and then went out into the street and attacked a harmless half-witted man, who in retaliation for a murderous assault made upon him, plunged the large blade of his pocket knife into Viers' side. The doctors are unable to say just how serious the wound may prove. One of his neighbors who saw the act say that Viers got only what he deserved and protested against the arrest of the old man.

The knife entered Viers' left side on a line with the heart but too far to the side for the blade to have struck it. It however punctured the lung cavity and the air is forced in and out through the wound with each breath that he takes. Condition of his system, the condition of the blade when it entered the body and the man's condition at the time will all count either for or against his eventual recovery. In the meantime "Munchy" as he is known, although characterized John Miller, was taken by Detective O'Connell and kept on his favorite seat on the corner block at Second and Madison streets and placed in the tanks at the City Prison.

Viers is known to every policeman on the force and he has been arrested numerous times for all manner of offenses. He is accused of being a bay pirate and there is nothing the police believe is beyond his engaging in it. He lives at 606 Madison street, in a comfortable house for the neighborhood. With him live his wife and his father. This morning Viers got up in a bad humor and after smashing a chair or two and kicking out the windows in the house, he went out into the street.

According to the statements of George Smith, who lives at 657 Madison street and W. Bloom, who lives at 651 on the same street, "Munchy" was sitting on a block at the street corner making a cigarette in the morning sun. Viers went across to where he was and in a moment had the old man on the defensive. He chased him around and finally picked up a stone and struck him with it. Just when or how the knife came into play, no one saw, except that together for a second and then Viers was seen to stagger back with his hand at his side. Blood was flowing profusely through his clothing and by the time he had reached the hospital he was weak from the loss of blood.

When the detectives went to look for "Munchy" he was still sitting in his favorite position staring off into space. In a rumbling he told of a fight and described with wild motions how he had been chased around. He, however, said that he had no knife and search failed to find one on him. In his room, however, Detectives Holland and Kyrle found a pocket knife in a hat hanging on the wall. There were no stains on it or signs that could be construed as being connected with the assault. It is believed that the clothing would have had the effect of wiping the blade as it was withdrawn and that there would in all probability be no marks upon it. "Munchy" will be held pending the outcome of Viers' injury.

JACKSON, Ky., July 23.—Captain Ewen left today for Lexington. He will go to Cynthia Saturday to testify against Jett and White.

Ewen was escorted by soldiers as far as Lexington.

At that place the troops left the train and escorted Charles Green, a witness before the Grand jury, who has been threatened back to Jackson. Green is to testify in the Cockrell case.

It is claimed that he saw the man who fired the shot that killed Cockrell.

Green told his story to the Grand Jury, which it is believed will result in the indictment and arrest of certain officials of the county on charges of bribery and accessories to the murder of Marcus.

VANDERBILTS ARE WELL RECEIVED.

ST. PETERSBURG, July 23.—Mr. and Mrs. Cornelius Vanderbilt, during their stay here, receive much attention. They were lined by Grand Duke Boris at the Imperial Palace. Grand Duke Vladimir was among the many notable persons present. Mr. and Mrs. Vanderbilt were also entertained at dinner by the Grand Duke Michaelovich, and they gave a luncheon to Grand Duke Boris and certain members of the Imperial family on board their yacht, the North Star.

SALVAGE CLAIMS HAVE BEEN FILED.

HONOLULU, July 23.—(By Pacific cable.)—Salvage claims for \$40,000 each have been filed by the owners of the tug Fearless and a Charles Counselman against the steamer Clavering, belonging to the China Commercial Steamship Company. The Clavering a few days ago struck on a reef at the entrance to Honolulu harbor and was pulled off by the tug named without injury, but sustained much damage. It is believed that the claims of the tug will be contested and litigation over the matter is likely.

MASONS BRING SUIT TO RECOVER MONEY.

Suit has been brought against the estate of the late Charles E. Gillett by the four Scottish rite lodges of the Masonic order in Oakland, to collect \$140,130.

Gillett, who was secretary of the lodges, had, at the time of his death, the funds of the lodges deposited to his own account in a local bank, and an order of the court was required to restore the money to the rightful owners.

The money, the funds of the late treasurer of the Masonic order, Secretary Gillett, had temporary charge of the funds, and expecting to retain their custody for only a short time, he placed the money to his own account in the bank. His sudden death occurred at this time, and the money passed into the hands of the administrator as part of the Gillett estate.

No opposition to the suit will be offered by the heirs of the deceased, and when the law has had time to take its course the Masons may expect to regain possession of their treasury.

AN APRICOT SEED LODGED IN THROAT.

Frank Preston, aged 16 years, residing with his parents at 918 Fifth street, was brought to the Receiving Hospital last evening to have an apricot seed taken out of his throat. The seed, which was causing Preston considerable pain, was removed with some difficulty and the lad returned to his home.

The reader of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh, being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease and giving the patient strength by building up the constitution. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that fails to cure. Send for list of testimonials. Address F. J. CHENEY & CO., Toledo, O.
